Eat nuts for Health

- No gas, No GMO
- No Ionlized
- BRC, HACCP, ISO Standard
- Organic
- Organic Oxy-low Fumigation

By choosing carefully only fresh and fine cashew apples in Binh Phuoc and employing a high-tech process, the cashew nuts are able to maintain the natural sweetness and crispiness, which also contains high protein concentration with other essential minerals such as Calcium, Iron, Copper, Zinc, Vitamins B, C, E, K, and health-beneficial saturated fats.

At HanfimeX, our products are processed and packed in our factory in Dong Nai, Binh Duong, Binh Phuoc province with a capacity of over 100 tons per day. The factory will provide Cashew nuts with higher quality and a sustainable ecosystem. The production lines use high-technology such as X-ray, Organic Oxy-low Fumigation, provides a complete solution to ensure no change in quality, taste & color of nuts.

Grade	Color Characteristics	Count per pound	Moisture	Broken
WW180	White, Ivory	140 - 180	5% max	5% max

- Refer to AFI standard

In flexi/vacum plastic bags or Tin box, then load in carton boxes. Each carton of 22.68 kg net, 20 kg net or follow buyer requirement. Total 700 cartons. 15.876 kgs per cont 20ft.

HANFIMEX COCONUT

SPECIFICATION

A. PHYSICAL

Color	Natural white, free from rancidity, musty
Flavour	Mild and sweet coconut taste with no off-flavour
Impurities	Not more than 5 dark or yellow specks per 100 gram
Particle size	About > 2.5mm < 3mm: 10%, Between 2mm-2.5mm 70%, Below 2mm: 20%

B. CHEMICAL:

Fat content	65 +/- 3%
Free Fatty Acid	0.3% maximum
Peroxide value	1.0 meq O2/kg maximum
Moisture Content	3.0% maximum
Residual SO2	50ppm max. (or 20ppm max, sometimes free SO2 if required)

C. NUTRITION FACTS (Quantity per 100g)

Energy	725.25Kcal
Fats	65%
Saturated fat	66g
Carbohydrates	20.6g
Sugars	6.0g
Proteins	6.5g

D. ANEXE

- No GMO
- No Ionized

E. MICROBIOLOGICAL

Ecoli	Negative
Salmonella	Negative

F. PACKING

Inside PE and 03 plies of Kraft outside, 7 kgs, 8 kgs, 10 kgs, 25 kgs, 50 kgs net/bag or buyer's requirement. The bags are free of BPA

G. SHELF LIFE

2 years from Production Date

H. HANDLING AND STORAGE

The product shall be stored in cool dry conditions (under 20 degrees Celsius) free from strong odor or smell. Otherwise, it shouldn't be loaded more 10 bags in the same column for packing 50kg per bag. And about 20 bags for packing 8-10 kgs net/bag

I. USES OF DESICCATED COCONUT

Desiccated coconut is perfect for various industries that require the exhilarating feel of natural fiber in the product such as Confectionery Industry, Bakery Product, Frozen Food Industry, Food Processing, Food Service Industry, Consumer Product Industry.

Desiccated coconut powder high fat and low fat (brief: Desiccated coconut) is one of our main products of export during many last years. Starting from 2009, our factory is officially applied modern productive line, so our quality is absolutely guaranteed. Our Desiccated coconut is manufactured 100 percentages from the white part of mature coconut kernel and we do not use any preservative to keep DC, that is reason our DC is not injurious for health and fit for human consumption. Desiccated Coconut are graded by its cutting size: fine grade and medium grade, where particle size of fine grade is smaller than medium grade.

Desiccated coconut is packed in strong and seaworthy packing with white PP bag outer and kraft paper and PE bag inner. Self-life of Desiccated Coconut could prolong more 02 years if it is kept in cool and dry place.

Each month, we can produce more about 1000 tons of Desiccated Coconut so, we have the ability to supply products in bulk to customers.

➤ 100% Natural

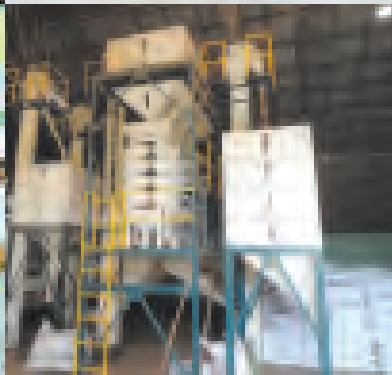

- No Ecoli, Salmonella
- No Ionized
- Free SO₂

HANFIMEX PEPPER & HERBS

King of Spices

- Steam Sterilization, ETO Treatment
- Spiral Clean Machine
- No Salmonella, No Ecoli

Known as the “King of Spices”, black pepper has remained the most precious and valuable form of spices in the world. It is the 3rd most added ingredient in food among the wide range of spices.

Hanfimex understand that Pepper plays an important role so we have invested in a modern system including factory, warehouse. Our processing factory applies GMO, HACCP and ISO standards in all stages of processing, storage and preservation.

Now, with modern production systems, we can process black pepper 500g/l, 520g/l, 570g/l, 580g/l, 600g/l in FAQ and Clean (ASTA) grade and white pepper. Our products can suit for almost of hardest markets in the world, and now, our pepper presents in USA, Europe, Japan, Korea etc.

Well roasted coffee beans	92% min	Color	Typical brown , well roasted , not burned
Malfuntion beans	5% max	Flavour	Characteristic aroma of robusta coffee, no strange smell
Broken beans	3% max	Taste	Characteristic taste of robusta coffee
Moisture	5% max		
Impurity	0.3% max		

Coffee is one of Vietnam's most important agricultural exports. Vietnam is highly competitive as a coffee producer because of ideal climate and environmental conditions, low production costs, and yields among the highest in the world.

Vietnamese coffee has been developing fast. To illustrate: In 1975 the country had 13,000 ha of coffee producing 6,000 tons. Now 500,000 ha is in coffee, with output exceeding 1,000,000 tons.

Hanfimex now is playing an important role in Vietnam Coffee industry. Every year we export green coffee to all around the world. Striving to deliver all round customer satisfaction we never lose sight of what really matters. Hanfimex is committed to being a reliable partner to the coffee industry and provides consistency through modern, flexible processing, intelligent logistics and Robusta expertise.
