Besides, our R&D can take any new product idea from the conceptual stage to manufacturing processes.

Läupro® a brand of Entaid International®

OUR STRATEGY

Engage our people as business owners. Support the long term health of our Läuopro brand through more targeted plans and product innovation. Grow into profitable new categories, channels, and countries.

OUR OBJECTIVE

The goal of ENTAID and the LÄUPRO Brand is to focus on improving the quality of life and to bring comfort, convenience, economical benefits and better hygiene for Vietnamese people in particular, and our world wide customers in general.

COMPANY MISSION

We make our products to the best a family can have

OUR COMMITMENT

Leverage environmental, social, and governance performance to help drive long-term sustainable value

About Läuopro® Brand

- Läuopro® is a pioneer in the cleaning, sanitizing and disinfecting wet wipes industry in Vietnam. *ENTAID®* created the *LÄUPRO®* product line for the purpose of cleaning and disinfecting appliances and surfaces; sanitizing hands in Only One Step.
- This product line will change traditional habit of cleaning, sanitizing and disinfecting items (with towel and spray/soap which is time, efforts and resources consuming) to a new habit of using a more advanced method (ONE STEP CLEANING).
- Läuopro® brings convenience, safety and efficiency for consumers. It promotes hygienic lifestyle, removes germs and bacteria and helps decrease the potential for diseases.
- Läuopro® is for multipurpose uses, from personal use, hand cleaning to tables and chairs, kitchens, living room & bathroom, from home to office / schools / public spaces/ industrial places/ religious practice places....
- Läuopro®'s aim: When consumers do not have *LÄUPRO®* by their side to use, they will feel annoyed and displeased because they have to return to the old habit of using traditional method of cleaning with spray bottle/soap and stinky towel.
