

I. About Us

Tienduc JSC was established in 2010 with 3 core values of international standard quality, excellent products and customer satisfaction. Leading in production experts are agricultural products such as cinnamon, star anise, pepper, cashew. We are also ready to supply agricultural products to order in large quantities. Our mission are respect and commitment to bring customers the best products and experiences. With more than 10 years of experience in trading and manufacturing, Tien Duc JSC has been bringing its products to consumers in more than 30 countries around the world such as: Malaysia, Iran, India, Korea , Arab, Canadian.... In the domestic market, our products are also being widely distributed to processing companies, turning raw agricultural products into useful products to end consumers. Along with that, Tienduc JSC has achieved ISO 9001: 2015 and HACCP certifications and many international certifications in the past 11 years.

Besides act as an agricultural producer, we also study for saving our environment. When Covid happened, we found our World being painful each day, therefore, we want to contribute our little abilities to protect our green planet to reduce disasters like Covid. OUR WOODEN STRAWS were studied and launched to replace for Plastic Straw is such our aim. Our TD wooden straws are eco straws -made from trees (not bamboo) planted in man-made production forest. This is natural, one time using, biodegradable, environmentally friendly straw type. Our TD wooden straw is a very excellent solution for all disadvantages of other eco straws. We want to bring new products to the international market by the convenience of wooden straws

Tienduc JSC is committed to bringing customers the most reasonable price, the best quality, the fastest delivery time, meeting a large number of products and especially urgent orders provided by the customer.
