# Shortly About Us

Amongst those developing countries, Viet Nam is known as the most attractive destination where foreign investors can match their own demands with most of products. It can be **AGRICUTURE PRODUCTS**.

Understanding the international needs, NiNa Vietnam is established with our vision - connecting Vietnamese companies and valued foreign investors. We provide these comprehensive services: freight forwarding and logistics, sourcing the best sellers and offering the most competitive price to overseas buyers.

Trust is our core value, and Nina Vietnam would like to ship our trust to all our overseas customers!

**Your satisfaction & return to NiNa is **OUR GOAL**.**

## *JAPONICA RICE*

- **Japonica rice** is a short Japanese rice variety, sometimes called Sinica rice, which is one of the two major rice varieties in Asia. Japonica rice is widely grown and consumed in China, Japan, South Korea and Taiwan. In **Vietnam**, it is grown mainly in the provinces of Dong Thap and An Giang.
- **Japonica rice** has a number of characteristics: round, regular, smooth, pearly white, delicate, gentle aroma. When cooked on white and sticky rice, easy to eat even when cooled, the rice grain retains its inherent ductility. Therefore, Japonica is the main food in Japanese meals.

## *JASMINE RICE*

- **Fragrant rice** is grown in the Mekong Delta. When it is cooked, the rice is soft, fragrant, and the rice is still sticky when it is cooled down. Therefore, Vietnamese fragrant rice is popular in many countries all over the world.
- This type of rice is moist so it is soft when cooked and has a slightly sweet taste. The aroma of the rice grains is slightly sticky when cooked.

## ***BROKEN RICE***

- This type of rice is fragments of **broken rice** that are broken when dried or transported ... Then, machines will separate broken rice from whole grain rice and sort by size.
- **Broken rice** is broken but not damaged or mutated badly, so it can be used as normal rice.
- On the other hand, the nutrition of **broken rice** is similar to normal rice.
