## Healthy nuts and dried fruits at its best

With the profound experience in the market, LAFOOCO has maintained its reputation as a trustworthy entity with a deep understanding of nuts and fruits.

Nuts and dried fruits are well-known for their rich content of antioxidants,

so adding them to your diet is a great way to improve your antioxidants intake. When giving your family nuts and dried fruits as a snack, you are helping them to improve their health.

Also, they are full of potassium, calcium, iron, and magnesium and a great source of vitamin A, B1, B2, Omega 3, plus Iron, Phosphorus, Niacin Calcium, Zinc and Amino Acids. Potassium is essential for muscle growth and health as well as the central nervous system to function. Calcium and iron are vital for bone growth and health.

For these reasons, we have researched and developed products to support good health and wellness, which have been widely distributed in retail channels and supermarkets nationally and globally.

# Our ingredients

The unique characteristic of LAFOOCO cashew products comes from the Vietnamese red soil, a nutritional ground for cashew nut trees to flourish.

As for value-added cashew products, we are committed to using 100% cashew kernels from Vietnam as they are sweeter, better shaped and have higher-good fat content than those from other countries. Our raw cashews are collected from local companies and directly from farmers in Binh Phuoc, Vung Tau, Dak Lak, Dong Nai.

As for other nuts and fruits such as almonds, walnuts, pistachios, hazelnuts, pecans, raisins, blueberries and cranberries, we import them directly from the biggest farms in the US and Turkey. With their best quality,

we integrate them into our premium products as Single Nuts, Mixed Nuts, Trailmix and Daily Nuts for customers around the world.

Moreover, we have our range of dried fruit chips such as Banana, Sweet potato, Purple sweet potato, Jackfruit, and Taro. Our fresh fruits are sourced from farmers in Vietnam with the best quality. We strive to produce delicious dried fruit chips with natural flavour while retain their nutrition, natural sugars and fibre.

Our ingredients are strictly controlled from harvesting to processing to ensure the quality of finished products.

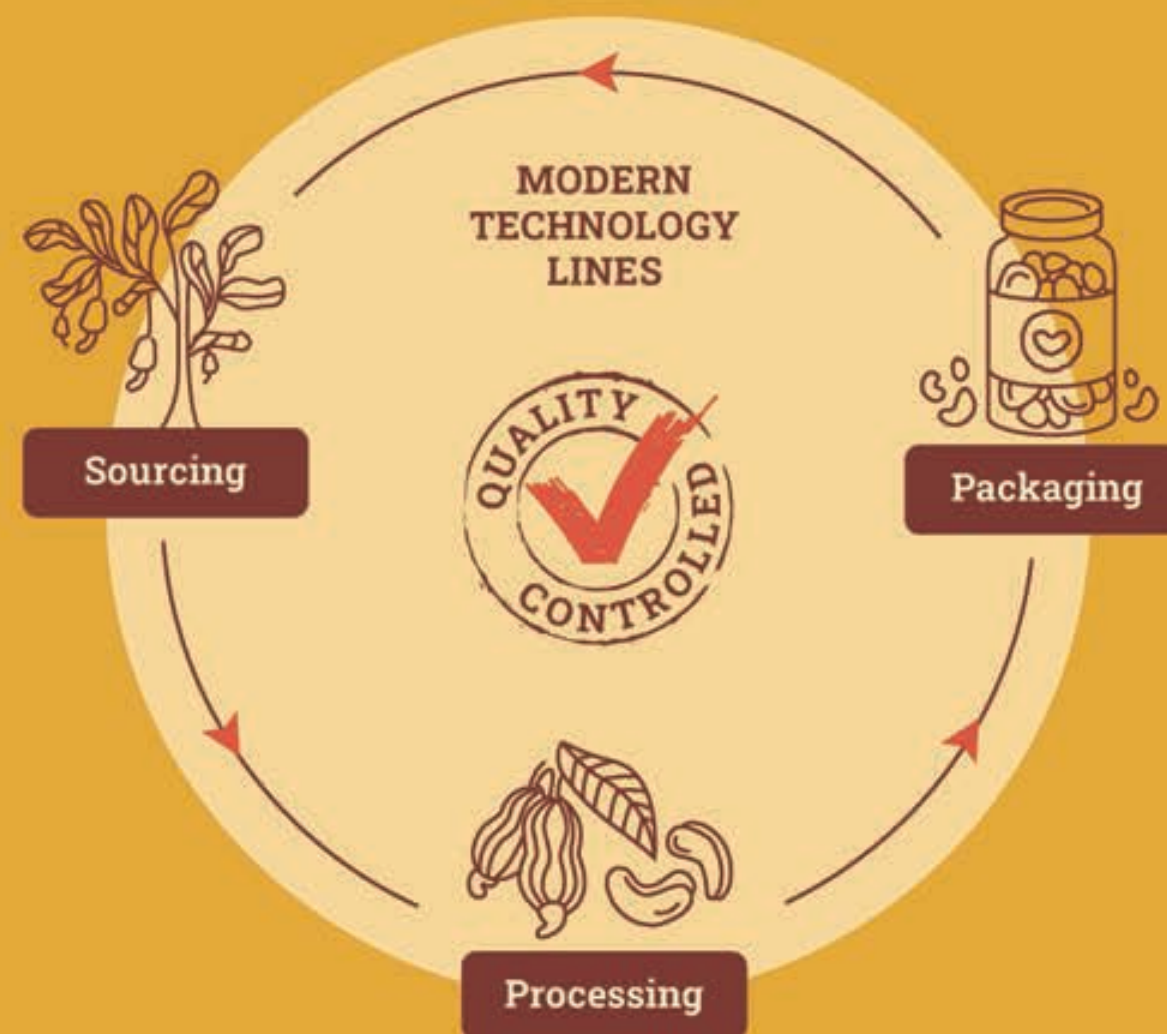

## Our value chain

LAFOOCO continuously innovates production lines with state-of-the-art technology from sourcing, processing to packaging.

Our production process is controlled under global standards such as ISO 9001:2015, HACCP, BRC Food, HALAL, SMETA-SEDEX.
