Nong Dong Tien

Established in the early years of Vietnam's agricultural industry, it is known and exported to the world. By 2021, we will rebuild the system to be more professional and efficient. As a company providing quality agricultural products of Vietnam. We are constantly learning and developing, exploring more export experiences to optimally meet the needs of customers everywhere in the world. After years of experience and achievements in the field of agricultural products. Agri Hai Long affirms its prestige to customers and partners around the world. We can supply large orders, stable in price, and confirmed in quality. We can offer specialty products with the privilege of being distributed around the world. With our criterion "When You Need – We have".

**Corn** is a whole grain that is rich in fiber, carbs, vitamins and minerals. is a natural gluten free food that is very suitable for people with Celiac disease.

**Supply ability: 12,500 ~ 200,000 tons/month**

**SOYA** is an economically viable food that is easy to grow. Soybean products are used in a variety of ways, such as direct use of raw seeds or processed into tofu, pressed into soybean oil, soy sauce, confectionery, soy milk, tofu, etc. meet protein requirements in the daily diet of humans as well as livestock.

**Supply ability: 12500 ~ 200,000 tons/month**

**SUGAR ICUMSA45** is refined cane sugar, sparkling white, free of moisture, impurities.

**Supply Ability: 12,500 ~ 1,000,000 tons/month**

## **BROWN SUGAR**

Sucrose is a type of sucrose with molasses at the rate of 8-10%. Create sweetness, anti-aging

**Supply ability: 9,000 ~ 50,000 tons/month.**

**CASHEW** It is a healthy food because it contains many unsaturated fatty acids, vitamins and minerals. Supports blood function and immune system, and helps prevent some cardiovascular diseases, kidney stones. Roasted salted cashew nut is a nutritious nut that is made from cashew nut with silk shell, combined with pure table salt, through the process of roasting and mixing together to create. Roasted salted cashew nut is a very delicious specialty that is often bought as a gift or to eat in the family because of the outstanding advantages it brings to human health.

**Supply Ability: 60 cont 40fcl/month**

**WHITE CASHENSES** is the main commercial product of the cashew tree. Vietnamese cashew nuts are considered to be more delicious and fatter than other countries' cashews.

**DURIAN** Freezing is a type of durian that, after harvesting, will be treated hygienically and then put into a freezing chamber and produce frozen durian products with guaranteed quality of deep cold, freshness of the product after freezing. Frozen. The color and flavor of durian remains intact after thawing.

Similar to frozen durian, **DURIAN FRUIT** is separated from the shell in a cold environment of 5 degrees, canned, frozen and stored at minus 40 to keep durian preserved longer, more convenient for users.

**Supply Ability: 1000 Tons/Month**

# JACKFRUIT

It is a very healthy fruit. Jackfruit helps you strengthen the immune system, fight cancer, maintain the beauty of the skin, etc. Jackfruit is rich in important nutrients such as vitamin A, vitamin C, calcium, potassium, iron, thiamin, riboflavin, niacin, magnesium and many other nutrients. Therefore, they are very beneficial to human health.

Freezing preservation helps to keep the original nutritional value of food ingredients during storage (freezing makes the activity of enzymes, microorganisms, and chemical reactions almost inactive, so changes occurs slowly, giving the product a color and flavor that is almost fresh, almost unchanged).

**Supply Ability: 2000 Ton/Month**
