PART 1. ORGANIC FARM

Organic cashew production is strictly implemented by Fomexco according to the process, from seed selection, gardening, pruning, fertilizing, tending, using plant protection products to harvesting ... so the honesty of Farmers have to put on top. Foreign experts will check at any cashew orchard, if any garden products do not meet the standards, they will be removed from the cooperative and have to start over...

PRODUCTION HISTORY

Farm of Fomexco JSC is a rural district of Binh Phuoc Province in the Southeast region of Vietnam. Bu Dang district covers an area of 1488 km². Binh Phuoc is home to many ethnic groups, of which ethnic minorities make up 17.9%, mostly Khmer, and Xieng, a few Chinese, Nung and Tay

The most important cash crop is cashew nuts. 250,000 to 300,000 tons of cashew nuts were harvested in 2019, accounting for 51.8 percent of the national output. Cashew nuts are grown mostly in the east and south of the province, roughly along (north and west of) National Route 14. Cashew nuts are an important export product for Bình Phước as well as Vietnam in general.

CULTIVATION/ CROP

Cashew is a forest tree type. Additionally, shrubs and other forest trees inter-grown in the cashew production area help to protect soil, water, and environment. This natural diversity cropping system can ensure soil fertility and crop nutrient stability. In total of 980 ha of organic cashew production managed by 162 farmers households.

The cashew nut yields for the traditional tree are about 2.5 metric tons per hectare

In this year, we have about 2500 to 3000 ton cashew material per total 980 ha.

We are developing the expansion of 1000ha in July 2019. Raising a total of about 2000 hectares next year.

PRODUCER INFORMATION

We are proud to be a company specializing in processing and exporting high quality organic agricultural products: cashew, cassia...Fomexco has become a reliable partner in the international market.

Fomexco Joint Stock Company is a manufacturer and exporter in Vietnam. The company owns 1 co-operative with of 980ha organic cashew and Organic factory with automatic line.

We are expanding the assessment of additional factory No. 02 in Phuoc Long, Binh Phuoc to increase production and supply. We have ISO certificate, Kosher, Organic and next time. Next time we expect to evaluate fair trade to increase income for farmers.
