www.vstar-eco.vn

V Star Vietnam Co. is a company in Vietnam that was founded in 2020 with a mission to provide eco-friendly products to its customers. The company specializes in distributing natural straws made from various materials such as grass, reed, and rice flour, as well as wooden cutlery, chopsticks, and bamboo chopsticks. V Star Vietnam Co. is dedicated to promoting sustainable living by offering alternatives to traditional plastic products that have a negative impact on the environment.

2023 and beyond

V Star Vietnam develops new products of natural wooden cutlery and wooden and bamboo chopsticks, continuing its mission in supplying biodegradable, compostable and eco-friendly natural products

Our history

2022

V Star Vietnam develops new products of natural wooden cutlery and wooden and bamboo chopsticks, continuing its mission in supplying biodegradable, compostable and eco-friendly natural products

2021

V Star Vietnam develops new products of natural drinking straws such as grass straws, reed straws, rice straws which are becoming increasingly popular thanks to the world's trend towards sustainability and eco-friendliness.

June 2020

V Star Vietnam's established with its two founders and starts up its business by distributing organic foods.

ECO-FRIENDLY
DRINKING STRAWS

A gift from nature!

There is a question that comes to my mind: “What do I discharge to the environment every day?”

And the confession is that I am still indifferent to the nature. Plastic use has come with severe environmental, social, economic and health consequences

Use natural bio-degradable straws in order to limit plastic waste. Be grateful for a gift by nature!

Disposable grass straws

Discover the most eco-friendly way to enjoy your drinks with our grass drinking straws! This sustainable alternative to plastic will not only benefit the environment but also enhance your drinking experience. The grass straws are also incredibly versatile. They are suitable for hot and cold drinks, making them ideal for coffee, tea, juices, and more. Plus, with their unique texture, they add a touch of nature to your drinks that plastic straws simply can't match. With their stylish and natural design, they are also a great conversation starter and a way to show your commitment to sustainability.

100% natural
