

SVEAM

Southern Agricultural Machinery and Engine Company Limited (VIKYNO & VINAPPRO) was incorporated from VIKYNO and VINAPPRO companies , with the trading name **SVEAM** (SOUTHERN VIETNAM ENGINE AND AGRICULTURAL MACHINERY COMPANY LIMITED) is a leading enterprise. in the field of agriculture and fishery in Vietnam. **SVEAM** belongs to **MOTORCYCLE AND AGRICULTURE MACHINERY CORPORATION** . From a factory specializing in assembling engines and agricultural machines designed by KUBOTA and YANMAR, in recent years, SVEAM has made a breakthrough to become one of the leading enterprises in the mechanical engineering industry to manufacture engines and agricultural machines in Vietnam.

History of SVEAM

Production capacity

Currently, SVEAM has about 40 CNC machining centers and over 400 machines and equipment for production. Including many modern measuring equipment such as 3-D measuring machine, surface gloss meter, tooth profile gauge, coating thickness gauge. SVEAM's production capacity is 45,000 engines/year and agricultural equipment is 25,000 machines/year. In order to constantly improve product quality, improve productivity as well as protect the environment, the Company has continuously invested in purchasing modern machinery and specialized equipment, building and maintaining a quality management system. ISO 9001: 2008 and ISO 14001: 2004 environmental management system.

Flagship product

SVEAM's products include two brands, VIKYNO and VINAPPRO, with key products such as:

- Diesel engines from 5 to 30 hp
- Gasoline engines from 5.5 to 13 hp
- 4 wheel plow
- Hand cultivator

- [Stacking harvester](#)
- [Single-phase and 3-phase generators from 2 to 60 KVA](#)
- [Water pump from 17- 600 m³ /hour](#)
- [Rice milling machine from 600 - 1,200 kg/hour](#)
- [Spraying machine](#)
- [Equipment for industrial shrimp farming](#)
- [Rice rub rollers of all kinds](#)
