# bamboovision

BambooVision was founded on the belief that now is the best time to use bamboo to transition to a more sustainable future, and that investing in bamboo is the most cost-effective solution to reducing environmental damage. Developing and using the full potential of bamboo as a raw material for the benefit of humanity while remaining in harmony with mother nature.

## #LOVETHEEARTH

BambooVision is dedicated to creating a sustainable network of **bamboo farms** with the goal of replacing **non-biodegradable materials**. We are working towards the formation of an ethically responsible supply chain that will **protect the bamboo forests** and the workers who cultivate them. We're working together to minimize carbon emissions, develop ecologically friendly goods, and build a better future. BambooVision is striving to challenge people to think differently.

# SUSTAINABLE GROWTH

Through our network of bamboo forest and sustainable farms, we are able to supply companies with raw materials they need to support major projects. We can assist your organisation in securing the volume required to keep your supply chain functioning effectively. With assured volume, you can be confident that your next project will have the materials required to meet your company's requirements.

**"WE ARE CREATING A  
SUSTAINABLE NETWORK OF  
BAMBOO FARMS."**

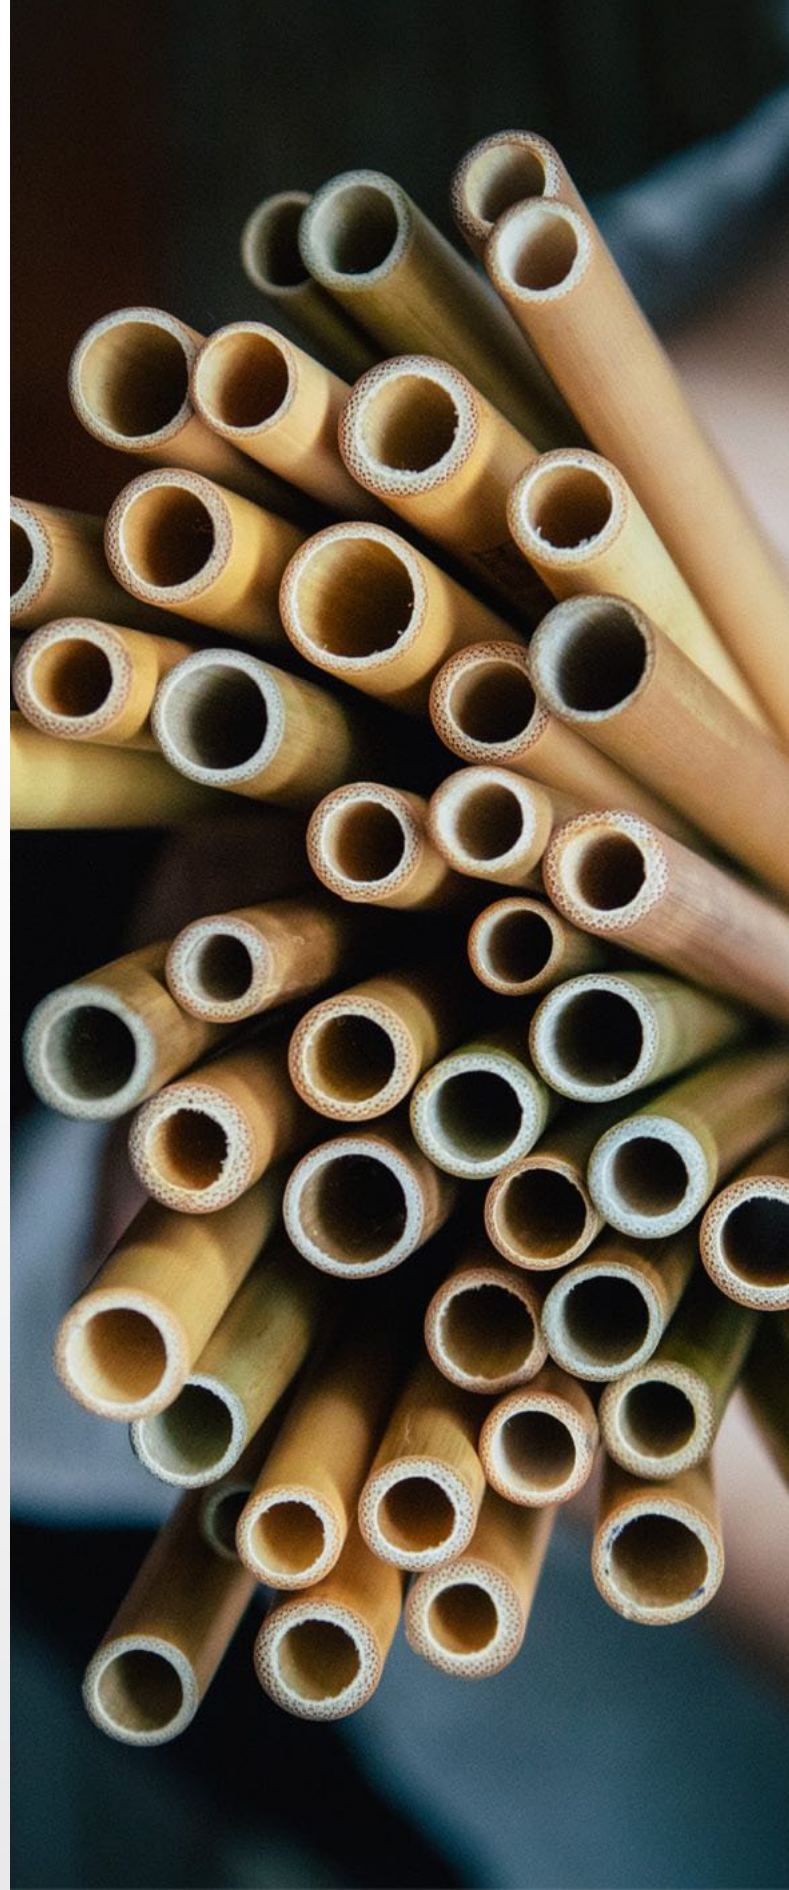

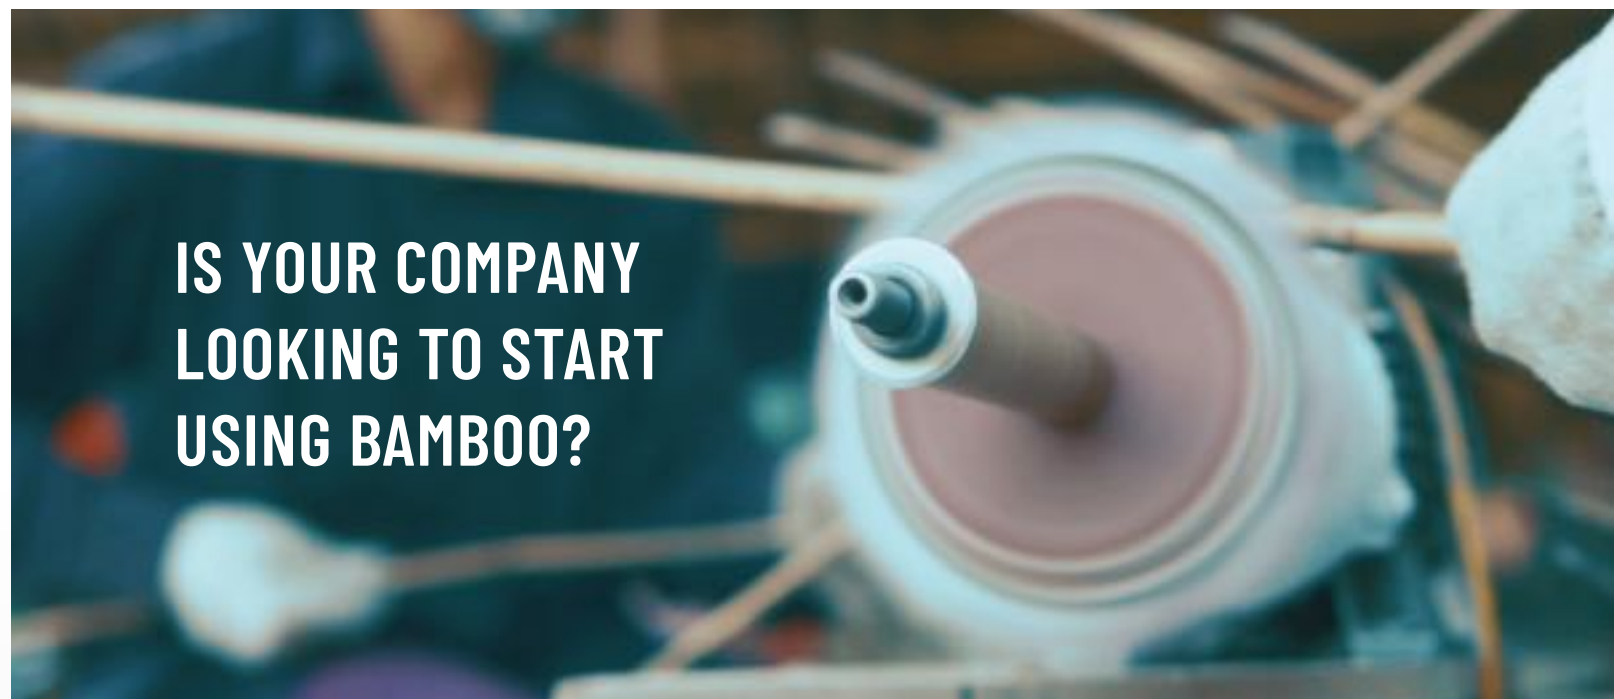

# PERSONALIZED QUALITY CONTROL

As an international brand, we understand the importance of delivering a high-quality product to the market. We also understand that different organisations require varying degrees of quality. We take every measure to provide you with the best possible value, ensuring that all of our goods meet all technical requirements and are cost-effective.

“YOUR PRODUCTS WILL  
MEET THE STANDARD YOU  
DEMAND...”

**IS YOUR COMPANY  
LOOKING TO START  
USING BAMBOO?**

# MATERIAL & PRODUCT CONSULTING

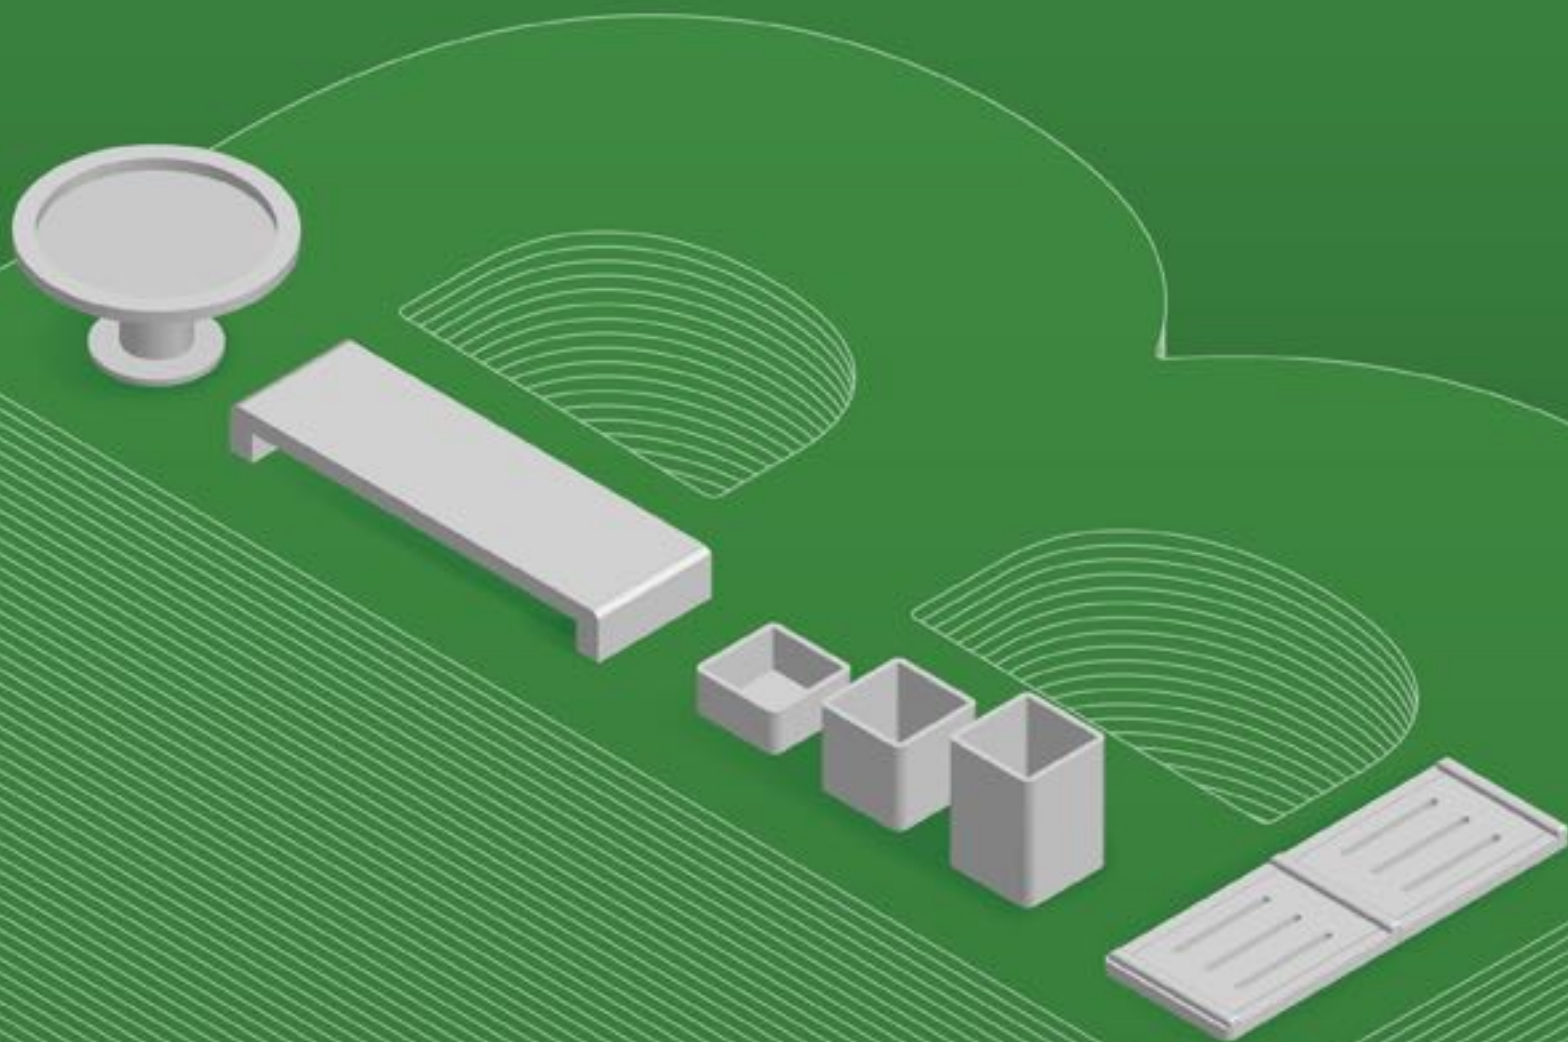

**100%** for & from  
**NATURE**

Allow BambooVision to assist you in locating better and greener alternatives for your current product line. We provide a large selection of ecologically friendly and all-natural materials. We not only advise you on which goods to incorporate into your current product line, but we can also advise you on which varieties of bamboo will work best for you.

**A PRODUCT FOR YOUR EVERY NEED  
ENVIRONMENTAL FRIENDLY**

## BAMBOO TOOTHBRUSHES

4 COLORS

SINGLE PACK (1 PCS) | "FAMILY SHARE" PACK (4PCS)

## BLEAF TEA

ORIGINAL FLAVOUR | 25 TEA BAGS/BOX

A blend that brings you the most essential characters of bamboo leaf. This simple yet powerful combination of young bamboo leaves and sophora japonica is packed full of silica and antioxidants, helping you improve your overall physiological health. Stevia leaves gives the blend a slightly sweet taste while letting bamboo leaves' fragrant aroma shine through.

# **CUSTOMIZED SERVICES**

# CUSTOMIZED PACKAGING

We can design unique packaging that reflects your company’s branding and identity. There are no restrictions on the design you may choose. Our design team will collaborate with you to create a “one-of-a-kind” packaging for your merchandise.

# CUSTOMIZED BRANDING

We can custom engrave any bamboo product with your company’s logo and identity! Our design team will work with you to build a “one-of-a-kind” appearance that will set your brand apart from the competition.

# BAMBOO CUSTOMIZED PRODUCTS

Explain your vision to us, and we’ll take care of the rest, from furniture to homeware to packaging to fashion accessories. Our experts, product designers, and engineers will work together to develop a blueprint, 3D model, and sample for your products.

[CHECK OUR PROCESS](#)

## PROCESS OF CUSTOMIZING & DESIGNING A BAMBOO PRODUCT

### STEP 1: CONSULTATION

- It's completely free!
- When clients come to us with a concept, we want the intellectual property to be safeguarded for them by signing an NCNDA. It does not belong to us; all of the designs, blueprints, and samples belong to our clients. We are merely aiding them in their development.
- We will ask our clients several questions, and then our team will analyze the provided information.
- Our team of engineers will provide our clients with comments on technical issues, ideas, and what can and cannot be done.

### STEP 3: SAMPLE PRODUCTION

- We don't have a minimum order quantity; our customers can get as many samples as they wish, although we generally **recommend a minimum of two pieces**. The price of the samples varies depending on the **complexity of the bamboo item**.
- We will assist with the **export and import paperwork** once the samples are completed.
- The sample is also owned by the client. **We do not manufacture your bamboo product for our product pool** or any other customer unless we have an agreement in place with the intellectual property owner.

### STEP 2: 3D DESIGN & BLUEPRINT

- The **base price is 150 USD**. (Prices vary according to the complexity of the bamboo item.)
- When the consultation is over and our customer understands exactly what they want - our design team will begin drawing a blueprint for them.
- Our team develops a **3D model of the bamboo items** for our customers once the blueprint is approved.
- The blueprint and 3D model are both the client's intellectual property.

### STEP 4: MASS PRODUCTION

- Once our customer has received the blueprint, 3D model, and sample, he or she can opt to have mass production done with us or another bamboo manufacturer.
- Our goal is to promote bamboo manufacturing by making the **bamboo product development process** as accessible and inexpensive to as many people as possible.

**CUSTOMIZE AND DESIGN NOW**

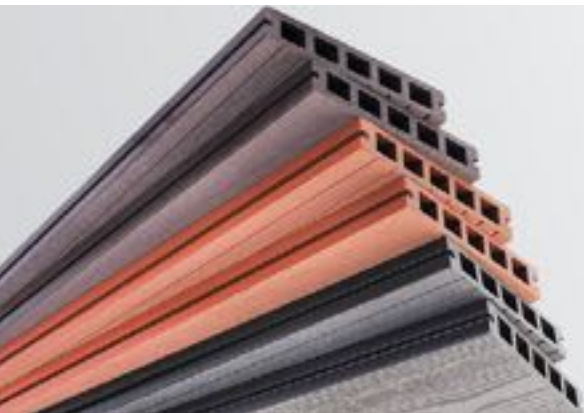

# BAMBOO PLASTIC COMPOSITE (BPC)

# "CHANGING THE WAY THE WORLD EXPERIENCES EXTERIOR SPACES"

The natural beauty of bamboo combined with the additional toughness and durability of plastic creates the ideal alternative solution for outdoor settings.

## WHY CHOOSE BAMBOO PLASTIC COMPOSITE?

- ✓ NATURAL LOOK
- ✓ ECO FRIENDLY
- ✓ HIGH DURABLE
- ✓ LOW MAINTENANCE
- ✓ LOW WARP GRADING
- ✓ EASY INSTALLATION
- ✓ WEATHER PROOF
- ✓ ROT, MOLD, AND MILDEW RESISTANT
- ✓ ANTI SLIP
- ✓ WATER PROOF
- ✓ ANTI GLARE - ANTI REFLECT
- ✓ UV RESISTANT
- ✓ SURFACE TREATMENT (USING PAINT & COLOR)

(W: 145mm, H: 21mm)

**BPC-D145H25**  
(L: 262mm, W: 128mm, H: 24mm)

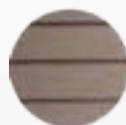

**Basic colors:**

Natural

Grey

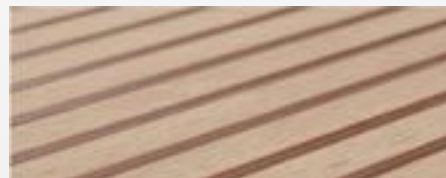

Coffee

Coal

**3 Types of Surface:**

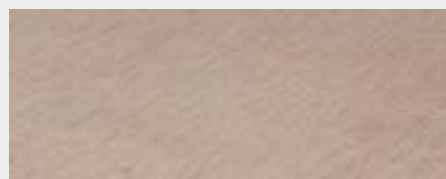

Grooving

Wood Grain

Sanded

# 2. TILES

**Application:** Outdoor decking, Patios, Flooring, Balconies, Bathrooms, Gardens.

**Advantage:** Natural wood look, non-toxic, easy & quick installation by interlocking mechanisms connecting the tiles together. The base is designed to be sturdy & durable along with the BPC material, enhancing its effectiveness for outdoor spaces as compared to standard decking.

**BPC-DIY300BN**  
(L: 300mm, W: 300mm)

**BPC-DIY300D**  
(L: 300mm, W: 300mm)

**BPC-W70H12**  
(W: 70mm, H: 12mm)

### 3. WALL CLADDING

**Application:** Wall, Ceiling, Roof and other exterior use.

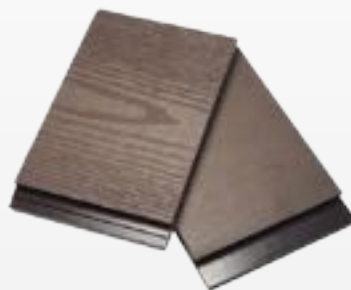

**Advantage:** Natural wood look, Waterproof, UV resistant, Weather resistant, Mold & Mildew resistant, the best choice for outdoor decorations.

**BPC-W150H21**  
(W: 150mm, H: 21mm)

**BPC-W140H10**  
(W: 140mm, H: 10mm)

**BPC-W140H16**  
(W: 140mm, H: 16mm)

**BPC-W146H21**  
(W: 146mm, H: 21mm)

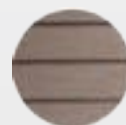

Basic colors:

Natural

Grey

Coffee

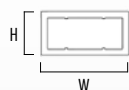

Coal

## 4. SUN LOUVERED PERGOLA

**Application:** Structural building blocks used for many different exterior creations; Sun Screening, Artistic Decoration Screening, Pergola, Gazebos.

**Advantage:** Natural wood look - the hollow design is light, with durable structural components protecting it from the elements and warping.

**BPC-S60H30**  
(W: 60mm, H: 30mm)

**BPC-S90H40**  
(W: 90mm, H: 40mm)

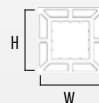

**BPC-S150H50**  
(W: 150mm, H: 50mm)

### 4.1.BPC COLUMN

**BPC-S90H90**  
(L: 90mm, W: 90mm)

**BPC-S120H120**

# 10. RAW MATERIAL - BPC COMPOUND

## WHAT IS BPC COMPOUND?

Bamboo plastic composite (BBC) compound is a synthetic material made of a mixture of bamboo powder, HDPE and additives. This is the material for the process of granulating bamboo-plastic composites and finished products made by extrusion and injection. We are able to customize the compound to suit our customers demands.
