An aerial photograph of the Sunwah Pearl development. Three tall, modern skyscrapers with glass facades and green rooftop gardens are the central focus. They are surrounded by lush greenery, including trees and landscaped grounds. To the left, a residential area with smaller houses and a road is visible. To the right, a body of water with a few sailboats is shown. In the background, more high-rise buildings are visible.

Why PHUC KHANG COMPANY?

Fairtrade & Sustainability

As a weaving artisan at the oldest traditional village of Rattan, bamboo handicraft making. Our aboard leader desired to build a business that could create positive impacts on local community, especially supporting local weavers with available natural material.

Timely production & shipment

Located at the heart of traditional village, we have a factory of 5000 square meter where 50 fulltime workers and 5000 seasonal weavers are working to deliver thousands of products all over the world monthly on time. Meeting contractual deadlines with good planning, scheduling.

Variety

As the next generation, our team now endeavors to continue enhancing VIETNAMESE craftsmanship in the global market by our innovation in designs and the ways we offer values to our worldwide customer.

Reputation

Our products are being exported to many corners of America, Europe. That's why PHUC KHANG COMPANY is presenting our Eco-Friendly Products, which we believe will bring more value to your business.
