Cooking for Excellence

Introduction

Excook Corporation specializes in healthy food processing. Combining the unique flavors of Vietnamese cuisine with special European sauce cooking methods and modern technology, we create unique, high-standard food products.

Mission

Providing low-calorie, healthy meals with delicious Vietnamese flavors

Our journey

Established in 2019, we are always moving to achieve new targets

Our story

Excook started processing konjac noodles in 2021 with the goal of bringing a healthy dish to consumer.

With the need for convenience and the development trend of modern ready-to-eat cuisine, Exsauce and Exnoodle products have been developed based on the foundation of quality and international standards for food hygiene and safety. Products using natural ingredients, without preservatives, and diversify in flavors.

With these product lines, we strive to fulfill our mission of "Bringing Vietnamese flavors to the world", promoting the unique flavors of Vietnamese cuisine.

Our certificates

Our factory is built with modern production lines, meeting strict international standards for food safety such as ISO 22000:2018, HACCP, FSSC 22000.

HACCP

ISO 22000 : 2018

FSSC

Our factory

With the principle of human health first, we have invested in a spacious, clean, and modern factory. The factory is located on a land area of 3 hectares in Hoa Mac Industrial Park, Duy Tien Town, Ha Nam Province. This is the central area of the Northern Delta, convenient for access by road, rail and river waterways

We believe in the future with a green, clean, beautiful, sustainable and non-polluting production model. Modern and large capacity facilities help Excook to store, import/export large volumes of goods with the least resources and in the shortest time. This optimization makes it possible for us to bring premium products to prices that are more affordable to consumers. Our commitment perfectly satisfy demanding customers who are interested in not only the quality of the product itself, but also the responsibility of the enterprise to society and employees

Research & Development

Excook combines the company's team of food engineers with leading research units to develop new products with unique quality and flavor.

A modern laboratory system is also invested to perform food R&D, develop product standards and coordinate in product quality control.

Product categories

Excook has created high-quality, personalized and convenient products suitable for a modern, healthy lifestyle.
