LETTER OF INTRODUCTION

Dear Valued Customers,

Vietnam Precision Mechanical and Automation Company Limited (VNPMA) would like to extend our warmest greetings and best wishes to you. We also express our sincerest gratitude to those customers who have been, are, and will be our companions, entrusting us with their confidence and utilizing our services and products.

VNPMA is a manufacturer and supplier of industrial auxiliary products and high-tech industrial products. With the motto of always bringing peace of mind and satisfying the needs of our customers to the fullest extent, we continuously improve our techniques and apply new technologies to build and affirm the sustainable value of our enterprise.

Currently, **VNPMA** is providing products to domestic FDI enterprises and exporting to markets such as Japan, the United States, etc., with the following main fields of operation:

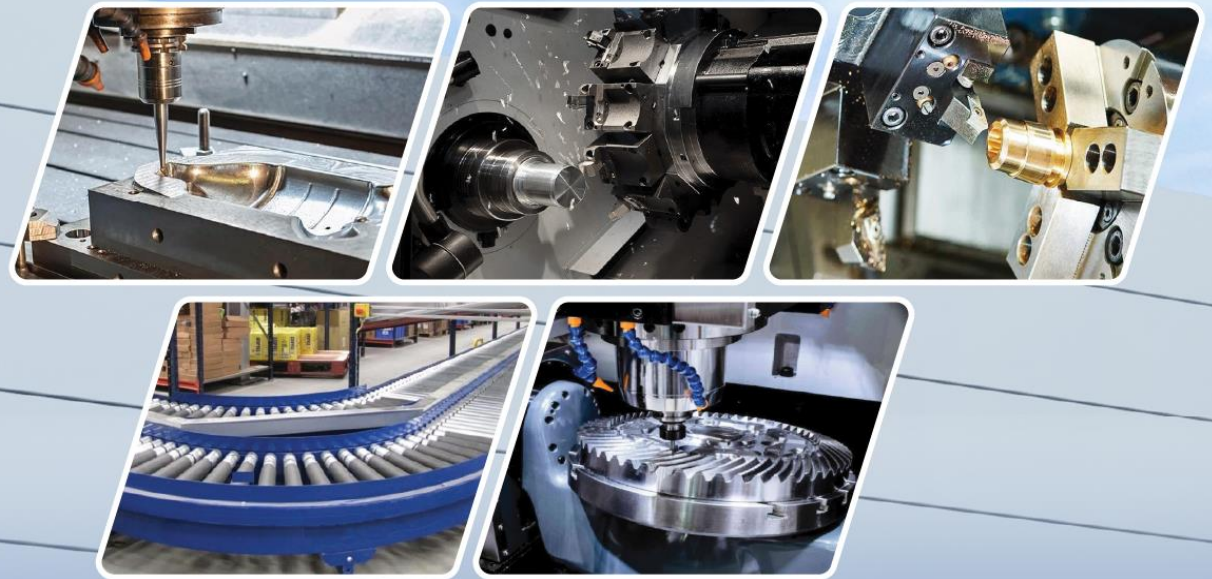

- Precision mechanical processing (electronics, semiconductors, telecommunications, aviation, automotive, etc.)
- Conveyors (electronics, food, logistics, etc.)
- Automation systems for factories

When choosing us, you can completely trust in the quality of our products, reasonable prices, etc. **VNPMA** always regards "suitability" as a competitive advantage, a success, and the key to its own existence.

Furthermore, the company always focuses on building a team of proactive and professional employees, constantly learning and applying advanced machinery techniques to each product, and integrating modern technology to meet the needs of customers. With profound gratitude for the support and attention that you have given to **VNPMA**, we commit to continuously striving to provide the best products and services in accordance with the core values we have set out, and we trust that we will continue to receive your valuable and effective cooperation in the near future.

"Your benefit is our core value"

- ❖ **Vietnam Precision Mechanical and Automation Company Limited** (PMA VINA Co., Ltd) was established in 2016. Over nearly a decade of construction and development, we have increasingly affirmed our strong position as a leading company in the field of precision mechanical engineering, automation, and solutions. With a team of highly skilled engineers, officers, and experienced workers, the products and solutions of PMA VINA Co., Ltd, developed through years of research, have been standardized and rigorously tested according to ISO 9001:2015 standards to ensure the highest quality when reaching the hands of customers.
- ❖ With a large-scale, professional factory located in Hanoi, along with large-scale production capacity and modern machinery lines, we have become a reliable destination and partner for many large companies and corporations both domestically and internationally. Our products have been exported to markets such as South Korea, Japan, and several other countries.

FACTORY SYSTEM

The total factory area is over 3,000 square meters. Our metal sheet processing system includes European technology machines such as the High Standard 3015 CNC laser cutting machine, TRUMPF BEND-1150 folding machine, punching machines, etc

BOARD OF DIRECTORS

TRINH DINH THANG
Director

With over 15 years of experience in precision mechanical engineering, collaborating with numerous domestic and international FDI companies

TRINH DINH THUC
Deputy Director

With over 15 years of experience in customer development both domestically and internationally, responsible for managing the sales department and market development.

TRUONG VAN THONG
Production Director

With over 8 years of experience in establishing production plans, managing processes, ensuring product quality, optimizing resources, supervising, and evaluating production performance.

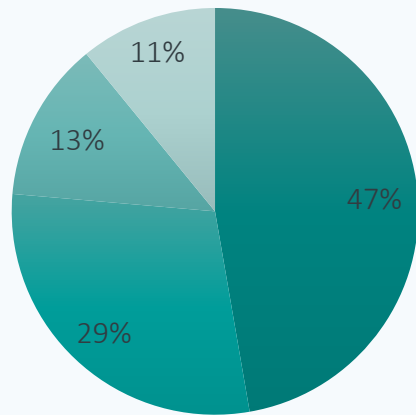

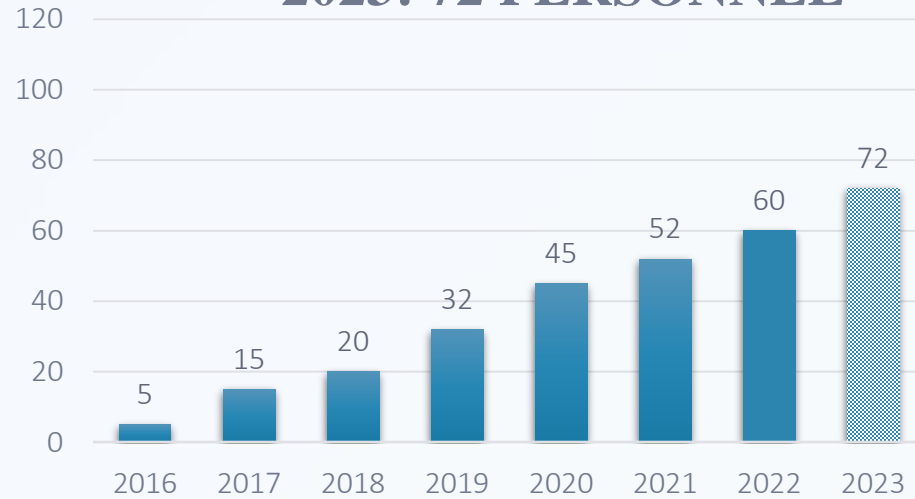

CAO QUANG NGON
Technical Director

With over 6 years of experience in design, project management, and automation development. Building new technologies for the company.

Precision Mechanical Engineering

VNPMA - Operating in the field of industrial automation in Vietnam. With modern equipment and a team of highly skilled engineers, professional production management, VNPMA delivers high-quality products, fast delivery schedules, and competitive prices. Therefore, we are chosen by many large partners both domestically and internationally.

Precision Mechanical Engineering

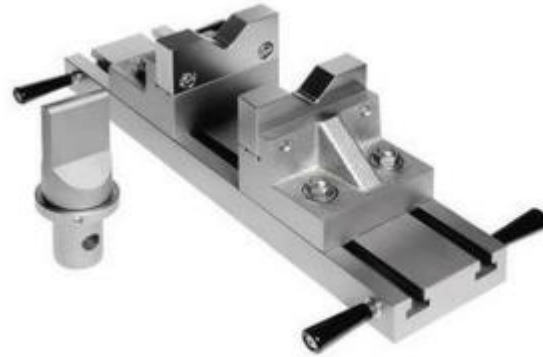

VNPMA specializes in precision CNC machining according to customer requirements, including machining machine parts, fixtures, jigs, prototype molds, CNC turning, CNC milling, CNC laser cutting, etc. We have been a trusted partner for many large clients. VNPMA continually invests in modern machinery and equipment, improves production processes, and enhances professionalism to meet the increasing demands of customers.

JIG

VNPMA - Specializes in jig machining, design, manufacturing of standard fixtures, and precision mechanical machining.

Jig - Fixture

PRECISION MACHINING

VNPMA specializes in machining and manufacturing mechanical parts using CNC machining methods such as CNC milling, CNC turning,...

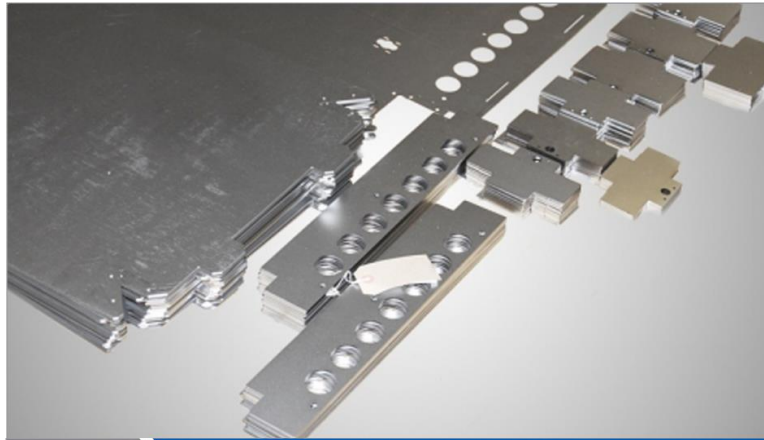

CNC Laser Cutting Stainless Steel - Steel

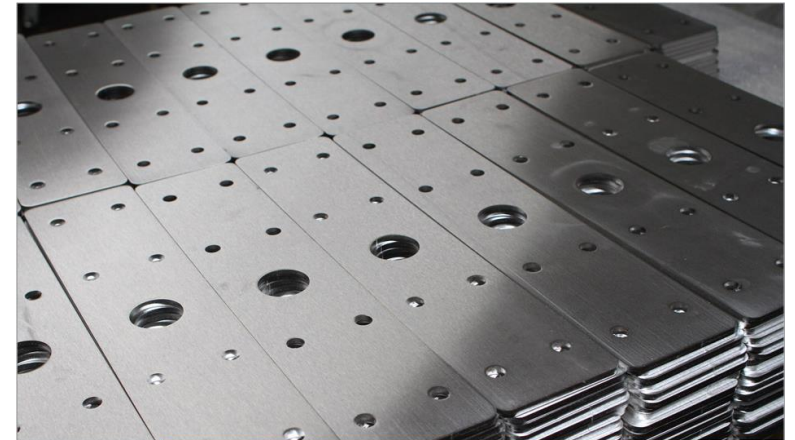

Specializing in metal sheet processing, offering laser cutting services on materials such as metal, copper, aluminum, stainless steel at reasonable prices in Hanoi.

Gia công cắt laser | Laser Cutting Machining

CNC Metal Folding

At VNPMA, we utilize CNC folding machines for metal folding processes, bending various metals including steel, stainless steel, and iron.

Conveyor System

VNPMA offers a variety of conveyor belt products, roller conveyors, etc., designed according to the requirements of industrial zones in Bac Ninh, Bac Giang, Ha Nam, Thai Nguyen, Vinh Phuc, and many other provinces and cities. VNPMA is always chosen by customers for its diverse range of models used in various manufacturing sectors such as electronics components, food processing, automotive parts, beverages, warehouse storage, and many other industries.

Solution

VNPMA provides customers with automation solutions and advanced technology to meet their production needs, aiming to improve work efficiency and product quality during the manufacturing process. In addition, we also advise and offer tailored design solutions for various export sectors. Our goal is to deliver the greatest value to customers based on a team of trained and deeply researched technical experts and specialists in this field.

CONVEYOR

One of the leading reputable conveyor belt suppliers in Vietnam, specializing in manufacturing and custom-designing conveyor belts according to customer requirements.

OPERATING TABLE

Diverse Models: Anti-static operating table, worker's operating table, assembly operating table, clean room operating table, stainless steel operating table, etc

RACKS

VNPMA provides high-quality industrial racks, available in various sizes and designs to meet the storage and organization needs of goods in factories.
