Handy
WE CHERISH YOU SILK

We are two Viet women who are deeply passionate about natural silk. After having the luck to work with and learn from the best local artists and craftsmen in Vietnam, we launched Handysilk with the intention to introduce the finest quality fabrics and daily care products to our customers, while helping to preserve an intangible heritage of our country, which is traditional silk production.

Natural silk has long been considered in the history of mankind as one of the most luxurious fabrics. However, at Handysilk, we want to make this delicate fabric available to everyone. We develop a wide range of different silk products, not just for special occasions, but also for your everyday needs. From beddings to scrunchies, from personal care to accessories and fashion... we adore the idea of making you feel good while using the top quality and sustainable products we provide.

We partner with Vietnamese artisans and craftsmen, some of whom have worked in sericulture for generations, to bring the fabrics to life. Everything we offer is produced with great care and expertise, as we cherish our customers, workers, artisans and the sericulture heritage.

Your satisfaction is our happiness...
