WELCOME LETTER

First of all, **NGHIA PHAT STEEL TRADING - CONSTRUCTION - MECHANICAL JOINT STOCK COMPANY** is pleased to send greetings to health and cooperation to all customers and partners have been with us throughout time.

Ladies and gentlemen,

There is a truth that remains true till today:

“STEEL INDUSTRY IS THE REPRESENTATIVE OF HUMAN CIVILIZATION.”

Indeed, the significant milestones of the development of human civilization are the deep impression of the mining industry and the development of the steel industry in particular and metal in general. From the earliest days of an-cient Egyptian civilization over 5,000 BC, to the first industrial revolution in the second half of the 18th century and the second in the late nineteenth century in Europe, to this day: the steel industry has not only developed but more and more grown significantly, despite the efforts of humanity in the search for new alternative materials!

Therefore, it is not too excessive to say that: Mastering the technology of the steel industry is the holder of the foundation, civilization, and future of humanity. And we - **NGHIA PHAT STEEL** Company - are proud to participate in greatness and thorough process of humanity: designing and manufacturing steel structures.

With nearly 20 years of experience in the steel fabrication industry, it is not a long time; however, it is not a short one with a business, with hard work and effort on the way to development - with specialists in the design, fabrication, and erection of steel structures. **NGHIA PHAT STEEL** company, we are proud to contribute a part of our efforts to the country's growth. And one more time, to achieve our goals and mission, we are non-stop developing detailed plans to improve the company in the direction of professionalism, modernity, and efficiency to meet the increasing demand for development of the country in general and the market of the steel industry in particular.

In our business, we remain convinced: **“The business philosophy based on FAITH - MIND, as a combination of EAST-WEST, will be the motto we pursue in our efforts to develop and serve.”**

WE ARE HAPPY AS PART OF THE SUCCESS AND THE PROSPERITY OF OUR CUSTOMERS AND PARTNERS!

Sincerely thank!
General Director

TRAN THANH HA

INTRODUCTION

NGHIA PHAT STEEL is proud to be one of the companies in Vietnam in the field of high-quality mechanical engineering. Our main activities include designing, manufacturing, processing, and installing high-quality mechanical products; and other technical works in the field of construction mechanics.

With more than 20 years of experience in the mechanical engineering industry, and an annual capacity of 12,000 tons of steel structures, **NGHIA PHAT STEEL** is confident reaching your requirements with full range of steel structure works such as factories, warehouses, houses, and projects for heavy industry, trade center, exhibition center, infrastructure, etc.

ORGANIZATIONAL CHART

FIELD OPERATIONS

- 1 Consulting, designing, manufacturing, processing, and installing high-quality mechanical products:
 - **Steel structure and industrial steel buildings:** Workshops, warehouses, high-rise buildings, heavy industry, commercial - service centers, etc.
 - **Water tower, tank:** steel or stainless steel.
 - **Machinery - mechanical equipment:** conveyors, lifts, crane frames, etc.
 - **Environmental treatment equipment system:** Vacuuming, gas treatment, wastewater treatment, water treatment, etc.
- 2 Bidding, consulting, designing, and constructing civil, industrial, and high-rise building projects.

MISSION

NGHIA PHAT STEEL brings optimal construction solutions - steel structures, satisfying customer satisfaction in many fields, and creating value for society.

VISION

NGHIA PHAT STEEL strives to reach the Top 10 companies in the field of steel structure in Vietnam by 2025.

CORE VALUES

PEOPLE

Developing staff capacity, and creating a dynamic, creative, and effective working environment.

TEAMWORK

Working on established processes, always promoting the connection of departments.

TRUST

Trust and listen to requests, opinions, and suggestions of employees, partners, and customers.

RESPONSIBILITY

Working with passion and enthusiasm to ensure the progress and quality of products.

IMPROVEMENT

Constantly updating to innovate thinking in management and production.

BUSINESS PHILOSOPHY

All production and business activities of **NGHIA PHAT STEEL** are carried out in the spirit of working responsibly with partners, customers, and the community to build a reputation for the **NGHIA PHAT STEEL** brand.

QHSE POLICY

COMMERCIAL CONSTRUCTION MECHANICAL JOINT STOCK
NGHIA PHAT STEEL (NPS)

SAFETY POLICY ENVIRONMENTAL HEALTH AND QUALITY (QHSE)

NGHIA PHAT STEEL specializes in providing: a) consulting and designing services for customers in industrial construction; b) production, construction, and erection of pre-engineered steel buildings, building workshops for civil, industrial, and commercial works; c) manufacture high-tech structural steel products; etc

NGHIA PHAT STEEL COMMITTED:

Changing and development

Continuous improvement

Continuous innovation

Customer Satisfaction

1. Safety, Health, Environmental Protection, and Quality is the significant business activities of **NGHIA PHAT STEEL** and are the responsibility of all **NGHIA PHAT STEEL** members.
2. Fully comply with relevant laws, regulations, conventions, and standards of Vietnam and internationally to ensure quality, environmental protection, and absolute safety in service, production and/or other business activities.
3. Regularly upgrade and renew all technical equipment and technology; improve professional qualifications, professional style, and continuous improvement to satisfy the requirements of customers and authorities where **NGHIA PHAT STEEL** conducts production and business activities.
4. Identify, prevent and minimize risks; ensure avoiding environmental pollution and disease injuries to help avoid loss of life, property, and environment in all activities by **NGHIA PHAT STEEL**. Create and maintain a safe, quality-assured production, business, and service environment.
5. To apply synchronously and fully the Management Systems of Safety, Health, Environment, Quality, and advanced systems specific to the industry. Regularly review and continuously improve management systems to improve production, business, and management efficiency in all activities of **NGHIA PHAT STEEL**.
6. All officers and employees of **NGHIA PHAT STEEL** are responsible for implementing this Policy!

OVERVIEW OF INDUSTRIAL STEEL BUILDING

INDUSTRIAL STEEL BUILDINGS

INDUSTRIAL STEEL BUILDINGS are houses made from steel structures and fabricated and installed according to pre-specified architectural and technical drawings. The process of manufacturing finished products (with a combination of inspection and quality control steps) goes through 3 main stages: design, fabrication of components and erection at the site. The entire steel structure can be produced synchronously and then delivered to the construction site in a relatively short time.

CAPACITY & TECHNOLOGY

- Factory area : 12,800 m²
- Processing capacity : 12,000 tons of steel structure/year

With more than 20 years in the field of steel structure, Nghia Phat Steel has had the experience and a team of highly qualified engineers to bring the most optimal solutions to customers.

NPS factory is built strictly with 5S standard with modern and highly automated equipment, strongly supporting the production of the most difficult steel structure products.

Every year, with a manufacturing area of steel structure of more than 8000m² and a system of safety cranes, advanced cutting, welding, cleaning and painting machines, we supply to the market quality components, weighing up to 20 tons, and with highly durable paint finishes.

Accompanying is the quality management system ISO 9001:2015, which requires all components to be inspected, checked strictly, meticulously to every detail by advanced technological equipment for quality assurance prior to shipment and installation at site.

DESIGN SOFTWARE

NGHIA PHAT STEEL's engineering team constantly updated with modern software and the latest international design trends with the goal of creating optimal solutions for the project.
