Thị Decor – Furniture & Home Living

Thị is a journey inward, capturing the small yet profound experiences of life with the calm and deep reflection of women who stand between two generations.

Thị is simply a name, a title that embodies a unique feminine essence in Vietnamese life, literature, and art. Thị seeks to spread the values of Vietnamese culture—both past and present—through the refined perspectives of designers and the heartfelt, poetic souls of those who cherish simplicity and femininity.

Embracing the Wabi Sabi philosophy, Thị seeks beauty in impermanence, finding brilliance beneath the layers of time, and depth in simplicity. Thị's products blend natural, sustainable materials with handcrafted and semi-handcrafted patterns and designs, creating something both profound and refined.

A beautiful set of blankets and pillows, a delicate curtain, a charming tablecloth, a soft cushion, small coasters, a floral apron, and a wooden tea table aged by time, gently touched by the sun, breeze, and whispering waves... All these, though small and simple, carry a deep resonance, touching the innermost feelings. Recognizing the value of a life in harmony with nature, and appreciating the serene beauty that emerges from tranquility—this is the message Thị wishes to share with everyone.

Where there are women, there is love. Thị is here, close and humble, by your side.

"THI" PROVIDES ODM SERVICE

We not only accept custom orders for size and color but also for patterns and designs on the product.

LINEN BEDDING

Thi chooses linen as the primary fabric for bedding designs because of the unique qualities and the subtle, emotional resonance that emanates from each fiber with every touch.

Linen bedding is an experience worth choosing. With its organic origins and entirely natural production process, linen bedding is not only safe for the skin but also offers exceptional breathability, keeping you warm in winter and cool in summer. Its strong structure makes linen soft and flexible, with great elasticity, abrasion resistance, and easier care compared to many other fabrics. Additionally, due to its natural shrinkage characteristic, all of Thi's linen bedding products are pre-washed before being sewn into their final form, ensuring maximum shrinkage for your convenience. Thi pays special attention to color coordination and detailing. The designs are simple and refined, making them easy to match with various interior styles

COTTON PALETTE

Cotton and Modal Bedding

Cotton and Modal Bedding

This chooses to use 100% natural fabrics such as Cotton and Modal to provide customers with high-quality and durable products.

Cotton bedding.

Cotton, a traditional material among natural fabrics, provides exceptional benefits.

The cotton fabric surface resists pilling and shrinking, while the fabric color stays vibrant after multiple washes, displaying no signs of fading.

Cotton has the ability to quickly absorb moisture and sweat thanks to the fine fibers woven with optimal density, enhancing breathability on the fabric surface. This leads to a cool, comfortable, and soft feeling on the skin. As a result, bedding made from Korean cotton fabric consistently provides a refreshing experience to the user, making it perfect for year-round use.

Bedding crafted from modal fibers.

Modal fabric, originating from cellulose extracted from oak wood pulp, is categorized as a type of artificial silk, inheriting the natural antibacterial properties of mature oak trees.

Modal shares characteristics with cotton, such as softness and excellent moisture absorption, but it is smoother and cooler. Modal features a strong bond structure that prevents stretching and is gentle on even the most sensitive skin.

Next to a cup of tea, on the porch,

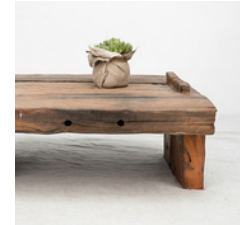

NEXT TO THE PETITE TEA TABLE

Thi selected Wabi Sabi as the design aesthetic for the majority of her wooden items, with a preference for recycled wood. Several of Thi's original creations are crafted from aged ship wood, each piece narrating a tale of saltiness, ocean voyages, and a rich history. Retaining numerous marks and weathering from marine life, furniture fashioned from ship wood is predominantly handcrafted, demanding a high level of expertise and artistry from the artisan.

Thi's interior products reflect a passion for the distinctive mortise and tenon structure, embodying a longing for love, the balance of yin and yang, and the connection of affection.

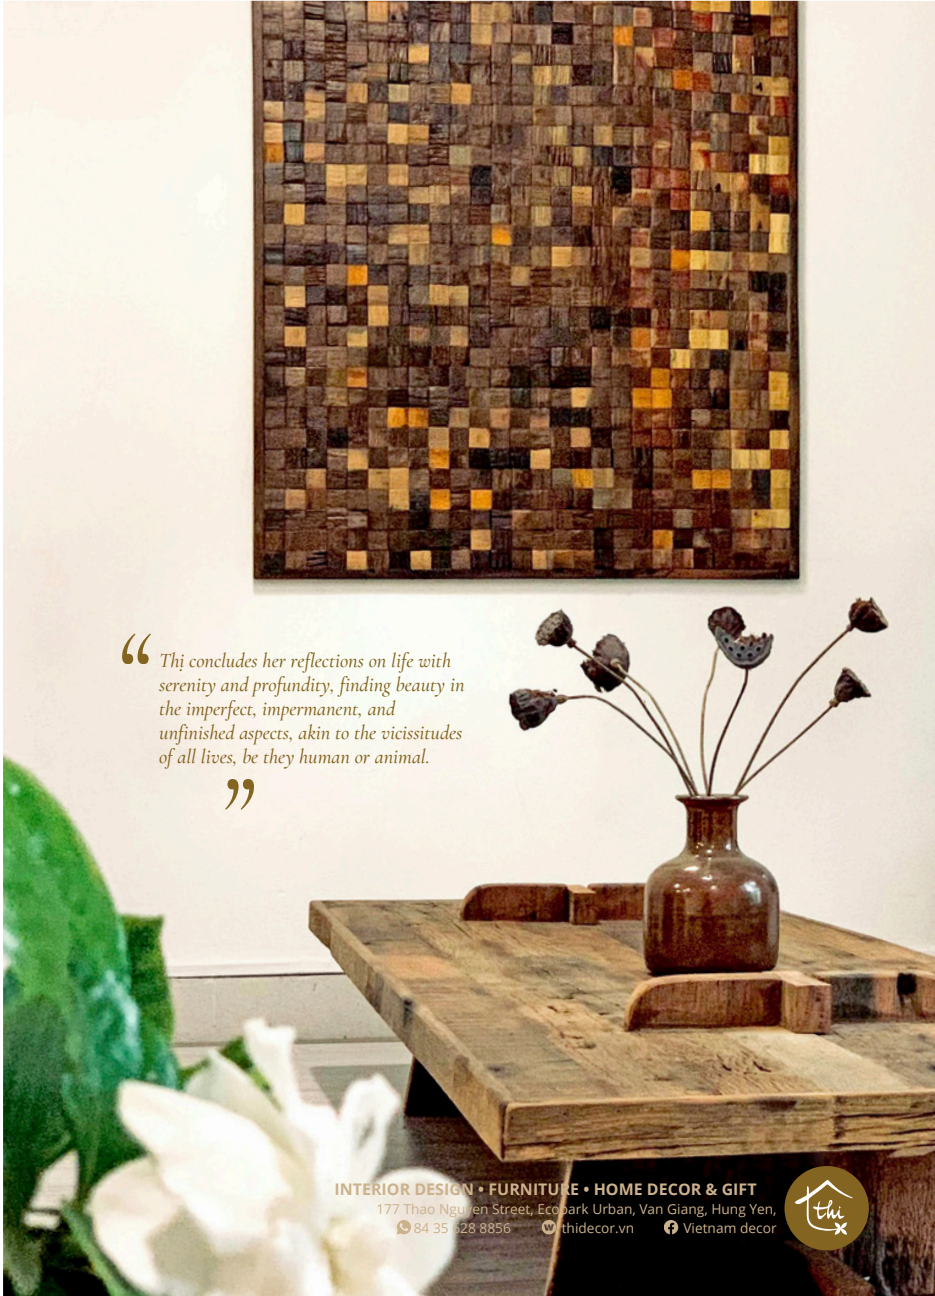

Sending a touch of passion to those who appreciate the fleeting and uncomplicated...

The tea cupboard by Thi's rustic designs respects the integrity of materials and the patina of time.

“ Thi concludes her reflections on life with serenity and profundity, finding beauty in the imperfect, impermanent, and unfinished aspects, akin to the vicissitudes of all lives, be they human or animal.
