WHO WE ARE

We believe the best way to develop any business is to make it sustainable. That makes us invest in farming which achieves environmental and social standards, and harvest sea-caught in ways that protect long-term health of species populations and ecosystems.

OUR QUALITY

We produce at plants using standardized management which is certified by 3rd organization. Our Quality controllers have experienced many years working at the factory. We have QC stay at every stage of production, cover material collecting, filleting, freezing, packaging, storing; and they randomly check every day.

Our products have been exported to many countries in North America, ASIA, and EU. Our mission is to become a key player as a prestigious international exporter; hence we construct the backbone of company through our responsibility of the product as what we are selling is exact product customer need.

VALUE BY
**SUSTAINABLE
SEAFOOD**

“Quality is never an accident; it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives.”

PANGASIUS

Tra/Basa is regular name refer to scientific fish *Pangasius hypophthalmus*, one of the major fish species in the Mekong River fishery, mainly growing in Vietnam.

Basa production is in the list of billion usd industry and growing year by year. The advantage of this fish are white meat, nutritious, and cheaper than other white meat fish. That's why Basa has been exported to more than 120 countries with volume around 1,50 million tons per year. Welltrimmed Fillet is the most popular spec for customers from the globe.

Specification:

Pangasius fillet (Skin-on, Untrim, Well-trimmed), Whole round (HGT, Butterfly), Steak, Portion (Cube, Slice)

EU Treated or Non-treat

Size: 170-220, 220-300, 300up; WR: 600-800, 800-1000, 1000up
