NEW 2026 – 2027 INSULATION

We successfully developed new items for clients to use in season 2026-2027 with the below advantages:

- 1 – Thicker & lighter than most of items in market now
- 2 – Conjugate stability: good performance
- 3 - Cost saving for all: less fiber consuming for final products
- 4 - Outfit shape stability: improved
- 5 - Stocking / aging finished garment & recovery stability : after long time of sea-shipping or being stock in inventory, the final products still keep good recovery performance.
