GOLDSUN
PRINTING
& PACKAGING JSC

A WORD FROM THE CHAIRMAN

Goldsun Group was established in 1994. Through many up and down stages, Goldsun has strongly transformed, successfully broken through to become a prestigious brand for domestic and foreign partners. We have been present in 3 main business areas: Printing and packaging; Foods; and Household Appliances manufacturing. In recent years, in order to better serve the increasingly diverse need of customers, Goldsun has invested in building many new packaging factories. We have invested in building factories according to international standards, accompanied by a team of experienced foreign experts. Our machinery and equipment were invested at top standard. We hope that Goldsun will become one of the leading packaging and printing companies in Vietnam in general and in the North of Vietnam in particular.

I sincerely acknowledge the trust and the support of valued partners and customers, especially acknowledge the dedication of leaders and laborers of the whole Goldsun Group at all periods. Such good affection is the strength, the huge motivation for Goldsun Group to be confident to face challenges during implementation of our targets and mission.

Wishing good health, success and happiness to you!

QUALITY CONTROL

We have separated LAB room for each factory, which is equipped with facilities to perform series of quality control tests in order to provide a sustainable solution to our clients. We test existing packages as well as potential packaging before shipping to our customers to make sure about Compression strength, Bursting strength, Moisture, Ink, etc.
