

# Engineering Sustainable Packaging for the Global Supply Chain

FOUNDATION & VISION

# Our Mission & Strategic Position

## Mission

To empower international importers, brokers, and brands with a resilient, sustainable, and streamlined packaging supply chain.

## Market Position

We are strategic partners, not just suppliers. Leveraging over two decades of expertise in material science, manufacturing, and international logistics.

# The Global Shift: Market Challenges & Opportunities

The packaging landscape is evolving rapidly, creating a clear opportunity for forward-thinking businesses.

## Regulatory Pressure

Increasing bans on single-use plastics worldwide drive demand for alternatives.

## Consumer Demand

A non-negotiable expectation for eco-conscious brands and products.

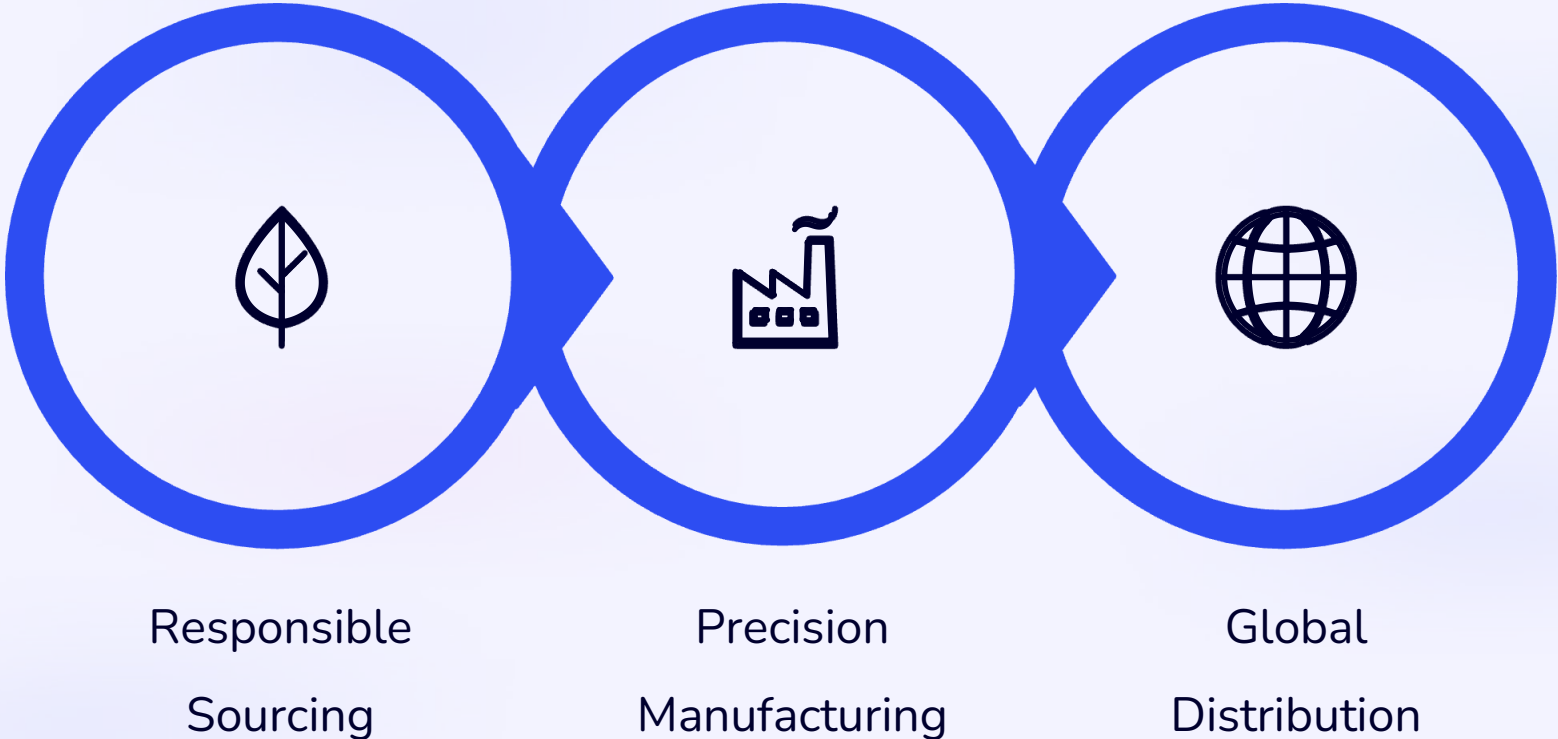

## Supply Chain Volatility

The need for reliable, quality-assured manufacturing partners is critical.

INTEGRATED SOLUTIONS

# Our Strategic Solution: An Integrated Ecosystem

IPACKS provides an integrated ecosystem that manages the entire lifecycle of sustainable packaging.

This ensures our partners can meet market demands efficiently and responsibly.

# Core Offerings: Plant-Based Innovations

We specialize in advanced, commercially-viable biomaterials that replace traditional plastics.

# Core Offerings: Responsibly Sourced Fiber

Our paper-based solutions are built on a foundation of sustainability and optimized design.

## FSC-Certified Materials

We guarantee a traceable and responsible supply chain for our portfolio of bags, boxes, and containers using Kraft and Paperboard.

## Optimized Design

Products are engineered for maximum strength and functionality while minimizing overall material usage.

# Market Differentiators

## Sustainable Material Science

Deep expertise in the technical properties and applications of compostable and recyclable materials.

## Export Navigation Expertise

20+ years of mastering international logistics, compliance standards (e.g., FDA, BPI), and quality assurance.

## Integrated Supply Chain Control

A true "one-stop" model that simplifies procurement, mitigates risk, and ensures stringent quality control.

# Why Partner With IPACKS?

We enable our clients to achieve key business and sustainability objectives.

## Achieve CSR Goals

Seamlessly integrate sustainable practices into your operations.

## Enhance Brand Equity

Align your brand with the values of modern, eco-conscious consumers.

## De-Risk Your Supply Chain

Depend on a proven, experienced partner for consistent quality and on-time delivery.

LOOKING AHEAD

# Our Vision: The Future of Packaging

We are committed to being at the forefront of innovation, driving the industry toward a more sustainable future.

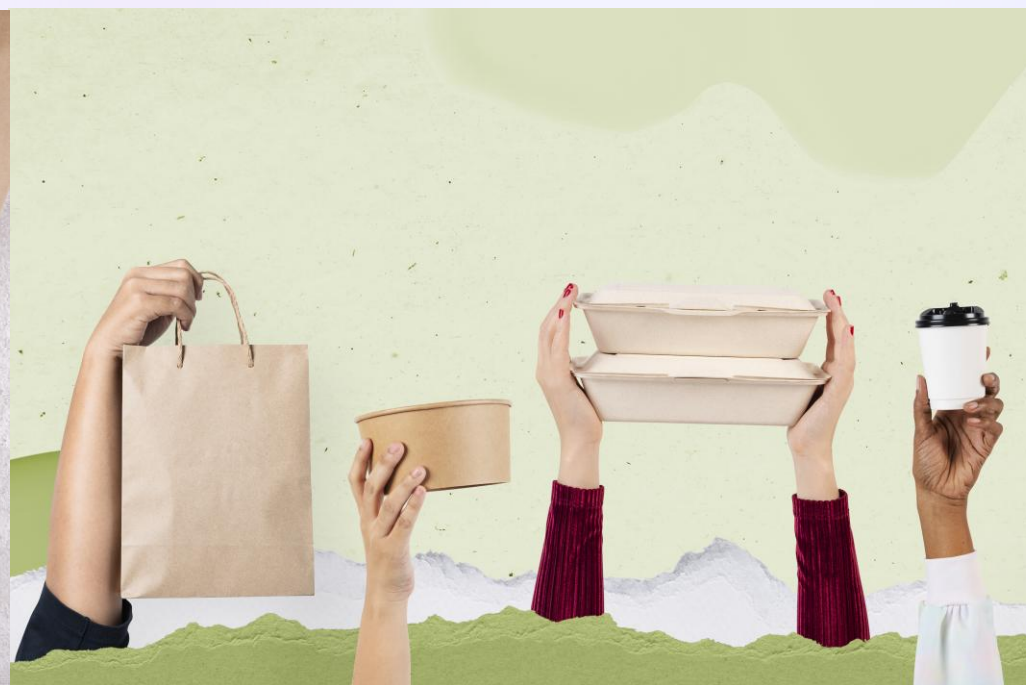

## Next-Generation Biomaterials

Investing in R&D to explore and commercialize new, high-performance sustainable materials.

## Circular Economy Solutions

Pioneering closed-loop systems that reduce waste and maximize resource efficiency.

# Let's Build a Sustainable Future Together

Partner with an expert who understands your market and your challenges!
