- Chemotherapy Nitrile Gloves & Fentanyl: Test result available, in progress for Registration
- Biodegradable Nitrile Gloves: in lab development process
- Registering FDA 510K white exam nitrile gloves

## New Certificate

- BRC Global Standard for Food Safety

PART FOUR

# Certificates

# Factory Certifications

## us USA Certifications

## EU EU Certifications

## Other Markets (Asia, Latin America & Australia)

PART FIVE

# Manufacturing Process and Quality Assurance

# Manufacturing Process

# Quality Assurance

Online Test

- Chemicals: online inspection
- Glove: **60 pcs/line, 1h/time**. Check point: pinholes, appearance, and physical inspection

Offline Test

- Water tight test, pump test: Check point: pinholes, appearance and physical inspection
- **AQL level evaluate**

Inspection During Packing

- Sampling Plan: **ISO 2859**
- Check point: Type of glove, size, weight, AQL, major defect.

Pre-shipment Inspection

- According to order requirement: **ASTM/EN 455**
- Sampling Plan: **ISO 2859**

# Environment Protection

We are committed to prioritizing the environment and emphasizing sustainability to preserve the planet's health and support the community's livelihood. We believe that by preserving and responsibly using natural resources, we can ensure that our actions are passed on to future generations.

## Acid and alkali recycling system

We are the first factory to use acid and alkaline recycling technology, which helps save chemicals and control the amount of waste released into the environment.

## Boiler system

Using heat transfer oil combined with optimized drying technology helps save energy costs.

## Wastewater treatment system

Using advanced technology, automatic control. Treated wastewater meet the highest allowable standards according to National Technical Regulation on Industrial Wastewater of Vietnam QCVN 40:2011/BTNMT, column A

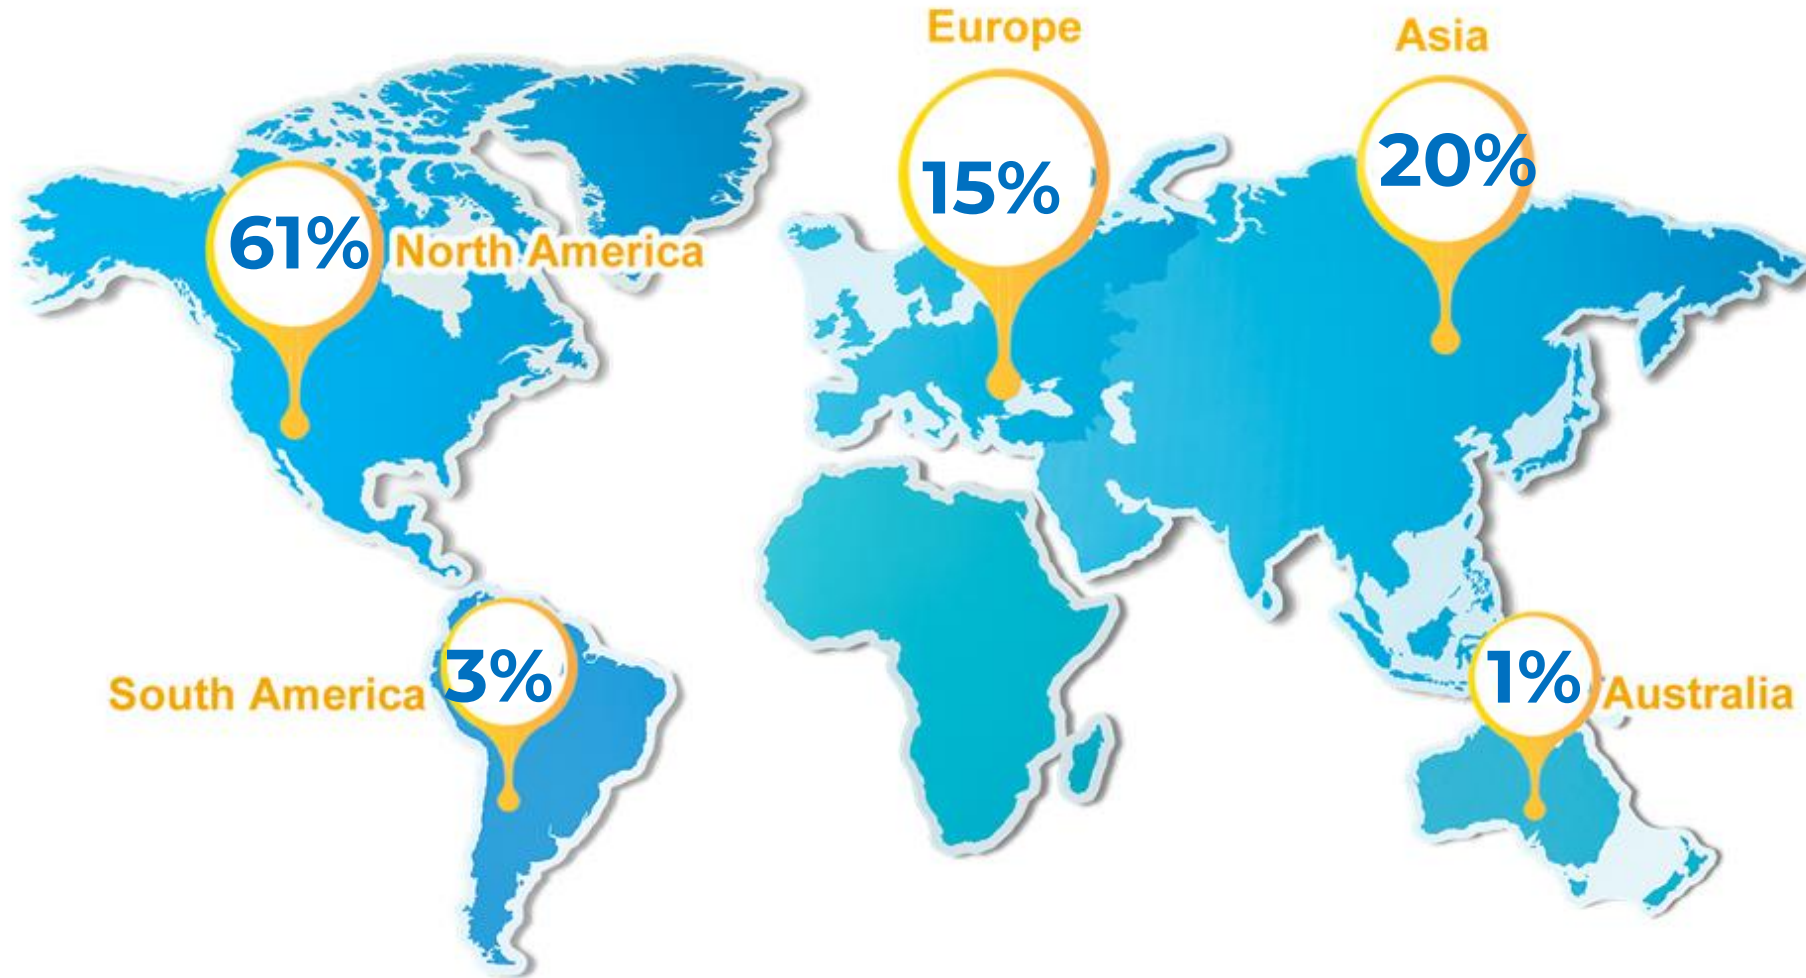

PART SIX
