

Come ABOARD

About Alewijnse

Alewijnse has more than 135 years of experience in marine and industrial technology and undertakes projects around the world. As an all-round systems integrator, the company supplies a comprehensive range of technical solutions.

Our company works on a great number of vessels and industrial installations every year in sectors that include yachting, naval & governmental, dredging & offshore, tugs & workboats and industry. This work includes contracts for new build, refit, repair and maintenance projects. In response to the ever-increasing need for sustainable operations, Alewijnse is at the forefront of designing environmentally friendly propulsion and energy-efficiency systems for maritime and industry.

Alewijnse Marine Vietnam has been proudly serving the local marine industry for more than 20 years, offering high-quality electrical solutions customized to the needs of the region's growing maritime sector.

Our innovate solutions

- Power conversion
- Electrical power distribution
- Switchboards & consoles
- Electrical installation
- Navigation & communication
- Process automation
- Audio/video & IT
- Vessel automation
- Safety & security

Come aboard

At Alewijnse we believe that the best results are accomplished together. That's why we like to work with partners to combine our knowledge and expertise. But it is also the talents of our employees, combined with those of others, that lies at the heart of our innovation. Would you like to get a taste of the dynamics of our company? Then get your chance and come aboard Alewijnse, to work together to build a future in which both technology and talent are used to their full potential.

Our capabilities

- Advise & Consultancy
- Project Management
- Systems Integration
- Design & Engineering
- Site management
- Commissioning
- Newbuilds, Refits & Conversions
- Service & Maintenance
- Spare Parts Delivery
- Training

Engineering

Our experienced Engineering team delivers tailored design solutions for a wide range of electrical systems, switchboards, and marine cabinets. We specialize in cable routing, switchboards and consoles design, marine automation systems and alarm monitoring systems, ensuring every aspect of the vessel's electrical infrastructure is seamlessly integrated.

Every project is approached with precision and innovation to meet the unique operational requirements of each vessel. All systems are engineered to comply with international marine standards, achieving the highest levels of efficiency, safety, and performance. By combining technical expertise with a deep understanding of marine environments, our engineering team provides reliable, future-ready solutions that support our customers' long-term success.

Production Hub

Alewijnse Marine Vietnam specializes in the design and manufacture of high-performance electrical cabinets and switchboards for all types of marine vessels - from cargo ships and fishing boats to specialized maritime vessels. Our products are engineered and built to European standards, ensuring maximum durability, reliability, and electrical safety even in the harshest marine environments.

At Alewijnse Marine Vietnam's Production Hub, every stage - from design, material selection, assembly and testing to final delivery - is tightly controlled to meet the highest technical requirements. We deliver tailor-made solutions for each vessel, optimizing space, saving energy, and making systems easy to operate and maintain.

Our team of experienced engineers and technicians is ready to advise, provide technical support, and accompany shipowners throughout the entire product lifecycle, from the initial design phase to real-world operation.

By combining modern technology, international standards, and a spirit of innovation, Alewijnse Marine Vietnam proudly delivers high-quality electrical and control products that enhance the efficiency and safety of every voyage at sea.

Services

Alewijnse Marine Vietnam offers comprehensive repair, maintenance, commissioning, and operational support services for all types of marine electrical installations. With a team of experienced engineers and skilled technicians, we provide professional solutions that cover every stage of a vessel's lifecycle - from troubleshooting and system upgrades to preventive maintenance and emergency repairs.

Our expertise extends across power distribution, automation, navigation, and control systems, ensuring that every component performs to the highest standards of safety and reliability. At Alewijnse, we understand the importance of keeping your operations running seamlessly. That's why we deliver fast response times, flexible on-site support, and tailor-made service plans designed to minimize downtime and optimize performance. Whether your vessel is docked in Vietnam or operating internationally, our dedicated team is ready to support you wherever you sail.

WORKBOATS

Electric Tug

CUSTOMER: DAMEN
SHIP TYPE: ELECTRIC TUG RSD2513-E
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Switchboards and consoles delivery

WORKBOATS

Tugboat

CUSTOMER: DAMEN
SHIP TYPE: ASD2312, ASD2111, RSD2513
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Switchboards and consoles delivery

CREW TRANSPORTS

Fast Crew Supplier

CUSTOMER: DAMEN
SHIP TYPE: FCS2710, FCS3307
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Engineering and switchboard packages

COAST GUARDS

Fishery Control Vessel

CUSTOMER: DAMEN
SHIP TYPE: COAST GUARDS
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Full package of electric and alarm/monitoring system

NAVY SHIPS

Rescue Submarine Vessel

CUSTOMER: DAMEN
SHIP TYPE: RESCUE GEAR SHIP 9316
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Full package of electric and alarm/monitoring system

NAVY SHIPS FOR ROYAL AUSTRALIAN NAVY

Support Squadron Merchant Vessel

CUSTOMER: DAMEN
SHIP TYPE: RESCUE GEAR SHIP
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Full package of electric and alarm/monitoring system

BULK CARRIERS

45,000DWT and 65,000DWT

CUSTOMER: DONGBACSHIN
SHIP TYPE: CARGO SHIP
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Engineering, Alarm morning system, switchboards and consoles delivery

CARGO SHIPS

Dry Cargo Ship

CUSTOMER: HANDELSKADE
SHIP TYPE: 5,000 DWT MULTI-PURPOSE DRY CARGO SHIP
TYPE OF WORK: Newbuild
SCOPE OF SUPPLY: Engineering and switchboards, AMS, Consoles

Why Alewijnse Marine Vietnam?

Expertise you can trust

With extensive experience in marine electrical systems, Alewijnse Marine Vietnam delivers reliable, high-performance solutions that meet the demanding standards of the global maritime industry. Our technical excellence ensures that every system operates safely, efficiently, and with lasting value.

Dedicated support, anytime and anywhere

Our responsive service teams are always ready to provide on-site or remote assistance, ensuring that your electrical installations remain fully operational. With rapid response times and a proactive maintenance mindset, we help minimize downtime and keep your vessels running smoothly.

Comprehensive, end-to-end solutions

We provide a full range of services—from electrical system design, engineering, and panel production to installation, commissioning, and after-sales support. This integrated approach ensures consistency, quality, and seamless coordination throughout every phase of your project.

Global expertise, local commitment

As part of the international Alewijnse network, we combine world-class know-how with local insight and flexibility. This unique blend allows us to deliver tailored solutions that meet your specific needs while upholding the highest standards of quality, safety, and sustainability.
