LEADING AGRICULTURAL EXPORTER

MEKOHERB
source of life

Nowadays, Mekong Herbals is one of the leading reputable manufacturers and suppliers in Vietnam in the field of processing products from tropical fruits, vegetables, and herbs. To provide the best products for the market, we have invested and developed farms: clean vegetables - fruits - hydroponic methods, organic farms, … through the Joint Venture Agreement with farmers or farming co-op. Consequently, our products have become reliable and familiar with Vietnamese and international customers.

Besides, with the desire to modernize the factory, modern machines and high-tech production lines from Japan, Germany, Italy, Korea,.. are used in our factories. As a result, our range of products has become more diverse and the quality has improved as well. Mekong Herbals Corp has met many standards like ISO 22000:2018, HACCP, etc. and international certificates including IFS, ORGANIC CERTIFICATION standards (USDA and EU), HALAL.

In addition, our products have been distributed in many supermarkets in Vietnam such as Lotte Mart, Aeon Mall, US Mart, or our Gavi-Mart, etc. and have been exported to more than 22 countries in the world: USA, Japan, New Zealand, Netherlands, Australia, Korea, Taiwan, Thailand, UAE, Russia, Germany, etc.

III. PRODUCTS SPECIALIZATION

- Organic products: Coconut Puree, Organic Coconut Meat, Organic Pitaya Dice, Organic Pitaya Slice, Pitaya Puree, Pure Frozen Coconut Water, etc.
- IQF Frozen Vegetables and Fruits: Pitaya, Watermelon, Durian, Mango, Avocado, Ginger, Broccoli, etc.
- Fresh and Processed Fruits: Puree, Concentrated Juice, Extract Powder, etc.
- Products from Gac fruit: Gavi Gac Oil, Gavi Gac Oil Softgels, Gac Powder G9, Gac Extract Powder, Freeze-Dried Gac Powder, Gac Concentrate, etc.
- Products extracted from medicinal herbs: Curcumin powder, Curcumin capsules, Herbal capsules, etc.

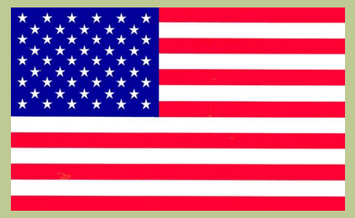

Rice paper made from vegetables and fruits by Mekong Herbals factor

Rice paper, with its main ingredients of wheat flour and rice flour, is thinly sheeted and dried. It stands as a pinnacle of Vietnamese culinary art, commonly used to wrap dishes like bánh xèo, gỏi cuốn, or enjoyed with meats and various vegetables, dipped in Vietnamese sauces.

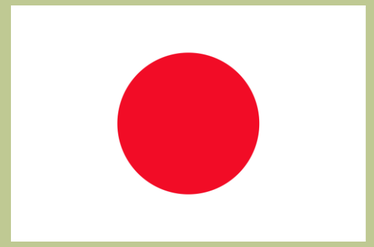

At the Mekong Herbals factory, rice paper is innovatively combined with various vegetables, enhancing the product's flavor and unique colors while maintaining its natural quality. Examples include turmeric rice paper, beetroot rice paper, plain rice paper, and brown rice paper.

Mekong Herbals' Export Markets

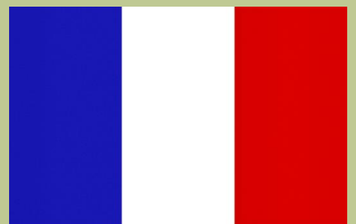

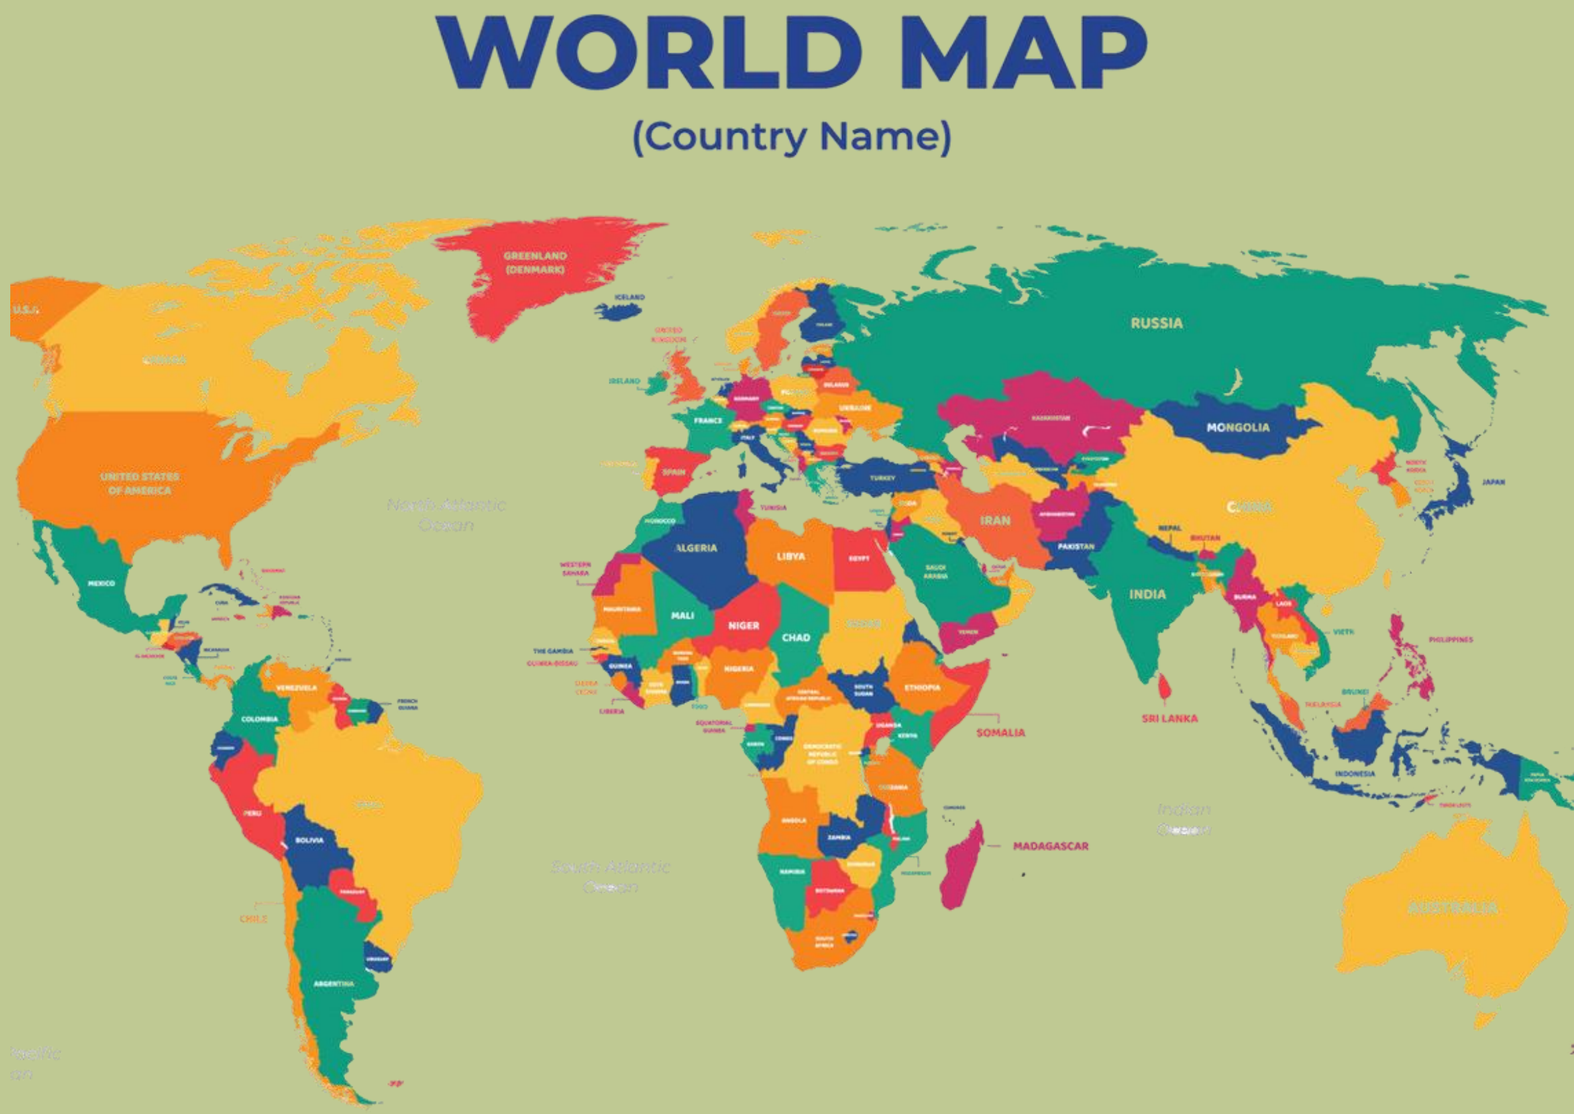

IV. FURTHER INFORMATION

4.1. Investment Field

- Planting seedlings: Oil-containing plants, growing oil-bearing trees, planting medicinal plants.
- Producing and processing natural herbal products: Gac (Momordica cochinchinensis), Passion fruit, Polyscias fruticosa, Ginger, Turmeric, Ganoderma, Polygonum multiflorum, Crinum latifolium, Desmodium styracifolium, etc.
- Investment and development of clean farms: Vegetables and fruits grown using the hydroponic method.
- Domestic and international cooperation for the development of concentrated materials: Gac, Passion fruit plants, Herb plants, etc.
- Providing raw and unprocessed materials for food processing plants and pharmaceutical industries for domestic and export markets.
- Conducting assays on medicinal plant varieties.

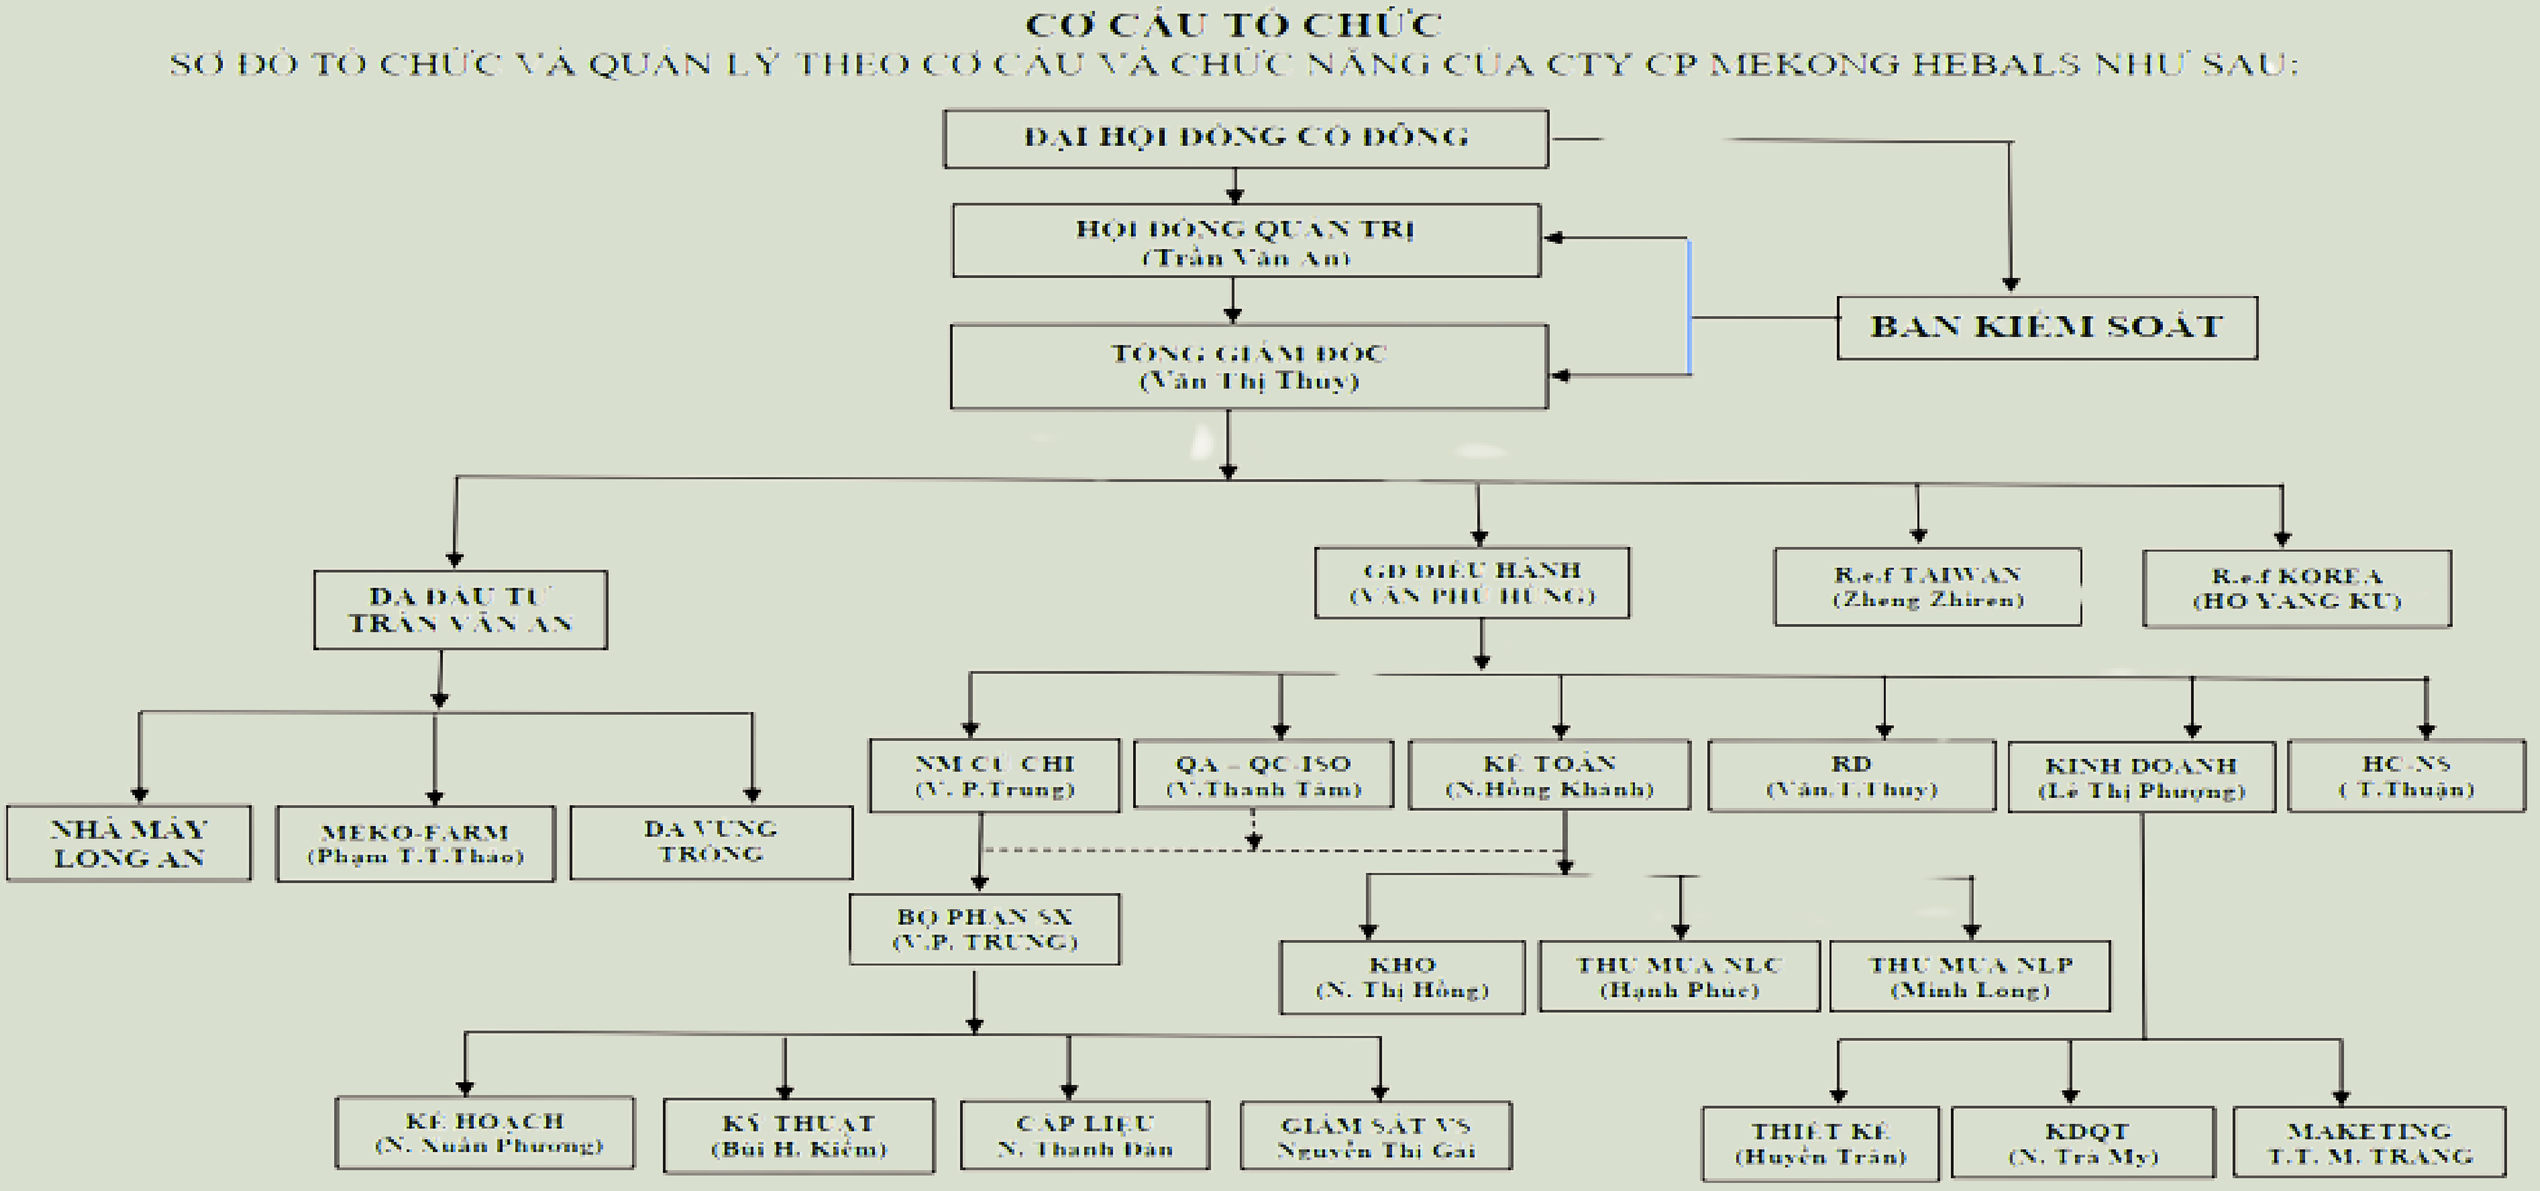

4.2. Core values of Mekong Herbals Corporation

- With a team of experts in agriculture and medicine, along with the collaboration of professors and scientists both domestically and internationally, MEKONG HERBALS CORP has been working closely with farmers over the years. The company is always at the forefront of applying advanced science and technology in the fields of plant and animal development. It has focused on collecting, testing, selecting, and producing new fruit and vegetable varieties with high productivity and quality, meeting the highest market demand.

- MEKONG HERBALS always strengthens its trust with customers through the principle of "Long-term cooperation – Mutual benefit," contributing to the development of a strong agricultural and forestry sector and supporting farmers. The company aims to provide high-value agricultural, forestry, and aquatic products to improve the quality of life and generate economic benefits for society.

- In addition, our company serves as a bridge to connect agricultural and forestry products from farmers to both domestic and international markets.

VI. COMPANY ORGANIZATIONAL CHART

TECHNOLOGY APPLIED IN MEKONG HERBALS FACTORIES

MODERN PRODUCTION TECHNOLOGY

We use IQF technology to quickly freeze fruit to maintain freshness and nutritional content of Vitamins.

And Freeze-drying is a method of using low temperatures to dry products and vegetables in a low-temperature drying chamber to let products escape steam. Dried products by this method can be keeping food safe and hygienic, keeping the color and nutrition of raw materials (vitamins, fiber, sugar, minerals...), preserved longer.

ACKNOWLEDGMENTS OF THE BOARD

The Board of Directors of MEKONG HERBALS CORP, together with all employees, sincerely appreciates the support and cooperation with **MEKONG HERBALS CORP** in the past. At the same time, we remain committed to working alongside our customers and farmers as trusted partners in the future
